A black and white photograph of two female students in a classroom setting. They are leaning over a table, focused on constructing a 3D model made of interconnected geometric shapes, possibly a Sierpinski tetrahedron. The student on the left is wearing a light-colored long-sleeved shirt under a dark vest. The student on the right is wearing a dark hoodie. In the background, there are classroom shelves, a window with a clock visible outside, and a clock on the wall.

Annual Enrollment Trend Report

Enrollment Trends 2015-2025

Take aways

- Continued overall decline of -1.9%
- Decline steeper than projected (-0.9%)
- Decrease in new, multilingual speaking students

Overall Enrollment Projected to Decline

* Preschool not included due to the difficulty to assess demand and due to its disconnect with school attendance areas.

Projection Methodology

- Cohort survival method is the principal technique (standard for most school districts).
- Looks at the rate each cohort (or class) progresses to the next level, then applies past averages to current enrollment.
- BVSD modifies to better account resident student trends and adds inputs for open enrollment flow, new housing development, and birth rates.

Projection Assumptions

- Open-enrollment flows and net migration are relatively stable.
- New housing is constructed at a similar rate as estimated in projection.
- Ratio of births to subsequent kindergarteners is relatively stable.
- Primarily based on past trends, but births, new housing, and open enrollment updates provide glimpses forward.
- Any future events that depart from current trends will push projections in a different direction (COVID-19).

Enrollment Trend Summary

- Projections indicate that overall district enrollment will continue to decline over the next 5 years, with the elementary level driving the most facility and staffing impacts.
- By 2030, BVSD is projected to have 14 schools at two classes per grade level or below, with two schools projected to be just above two classes per grade level.
- Of those schools, seven are projected to be at 1.5 classes per grade level or below, which could necessitate mixed-grade classrooms.

Community Engagement Overall Process

Phase 1: Preparation (January-February 2026)

- Engage principals and teachers
- Orientation sessions with Board and Superintendent advisory committees
- Begin to engage with municipalities

Phase 2: Build understanding of the problem and collect input (March - May 2026)

- Regional community group meetings and stakeholder specific sessions

Phase 3: Develop school adjustment options (June - August 2026)

- Present summary of community engagement to Board (June)
- Staff to develop facility planning options (June-August)

Community Engagement Overall Process (continued)

Phase 4: Present school adjustment options to the Board (August 2026)

- Board's opportunity to discuss options
- Opportunity for community input during public comment

Phase 5: Present final plan for study to the Board (September 2026)

- This will include updated attendance boundaries, open enrollment preferences, analysis of facility improvements required (if any), etc.
- Opportunity for community input during public comment

Phase 6: Present final plan for action to the Board (October 2026)

- Necessary for BVSD open enrollment timeline Nov. 1 - early January 2027

Phase 7: Student / Staff Transition Planning & Support (Nov. 2026 - Aug. 2027)

- Enrollment specialists to provide direct support to impacted families throughout the enrollment process
- Support impacted staff and families with transition
- Plan for implementation
- Facility real estate process if needed

2026-2027
