LRAC Recommendations

- Metrics
 - Annual Enrollment Trend Report
 - Enrollment Advisory status
 ≤ 2 rounds and $\leq 60\%$ of capacity
 - Community Engagement status
 ≤ 1.5 rounds and $\leq 50\%$ of capacity
- Recommended Board Actions
 - ✓ Study Open Enrollment policy
 - Study attendance area boundaries - in progress
 - ✓ Information gathering

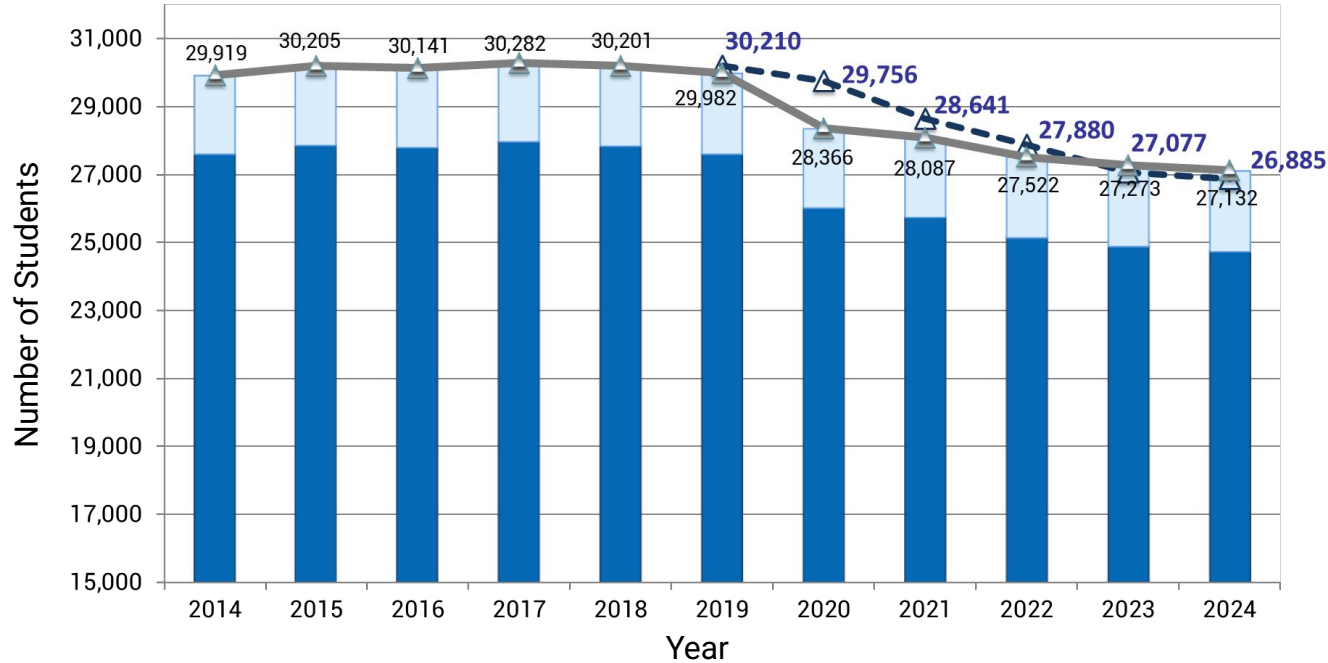

A black and white photograph of two female students in a classroom. The student on the left, with blonde hair, is leaning over a desk, holding a piece of a geometric model. The student on the right, with dark hair in a ponytail, is also leaning over the desk, looking at the model. They are both focused on their work. The background shows a classroom with shelves, a clock, and a window.

Take aways

- Continued overall decline of - 0.5%
- Decline not as steep as projected (-1.4%)

Projection Methodology

- Cohort survival method is the principal technique (standard for most school districts).
- Looks at the rate each cohort (or class) progresses to the next level, then applies past averages to current enrollment.
- BVSD modifies to better account resident student trends and adds inputs for open enrollment flow, new housing development, and birth rates.

Projection Assumptions

- Open-enrollment flows and net migration are relatively stable.
- New housing is constructed at a similar rate as estimated in projection.
- Ratio of births to subsequent kindergarteners is relatively stable.
- Primarily based on past trends, but births, new housing, and open enrollment updates provide glimpses forward.
- Any future events that depart from current trends will push projections in a different direction (COVID-19).

Enrollment Trend Summary

- For the 2024-25 school year, there are eight schools that are in the Enrollment Advisory Phase (Coal Creek, Community Montessori, Eisenhower, Eldorado (K-5), Flatirons, Kohl, Mesa, and Whittier) meaning that they are fewer than 2.0 rounds and 60% capacity.
- No additional schools were in the Community Engagement Phase in 2024, with fewer than 1.5 classes per grade and 50% capacity with a projected trend to continue for at least five years. Heatherwood started the engagement phase last year and is continuing to be monitored.
- Projections indicate that enrollment will continue to decline throughout the district out to the 2029 school year, albeit at a slower rate than last year's projection.
- In 2029, BVSD is projected to have eight schools at the Enrollment Advisory Phase and three at the Community Engagement Phase. These schools are distributed with seven in Boulder, one in Louisville, one in Superior, and two in Broomfield.
- Continued policy revisions provide tools to allow the district to make adjustments to influence enrollment.
