BVSD Population Change by Age Cohort 2010 to 2020

Census Pyramid Takeaways

Youth population decline

Declining population of children under 10 years old from 2010 to 2020

Aging in place

Fewer opportunities for current and future housing turnover should people choose to age in place.

Tweens & teens aging out

Although growth is shown for 10 to 19 year olds, these students are aging out of school in the next few years. (This is already 4-year old data.)

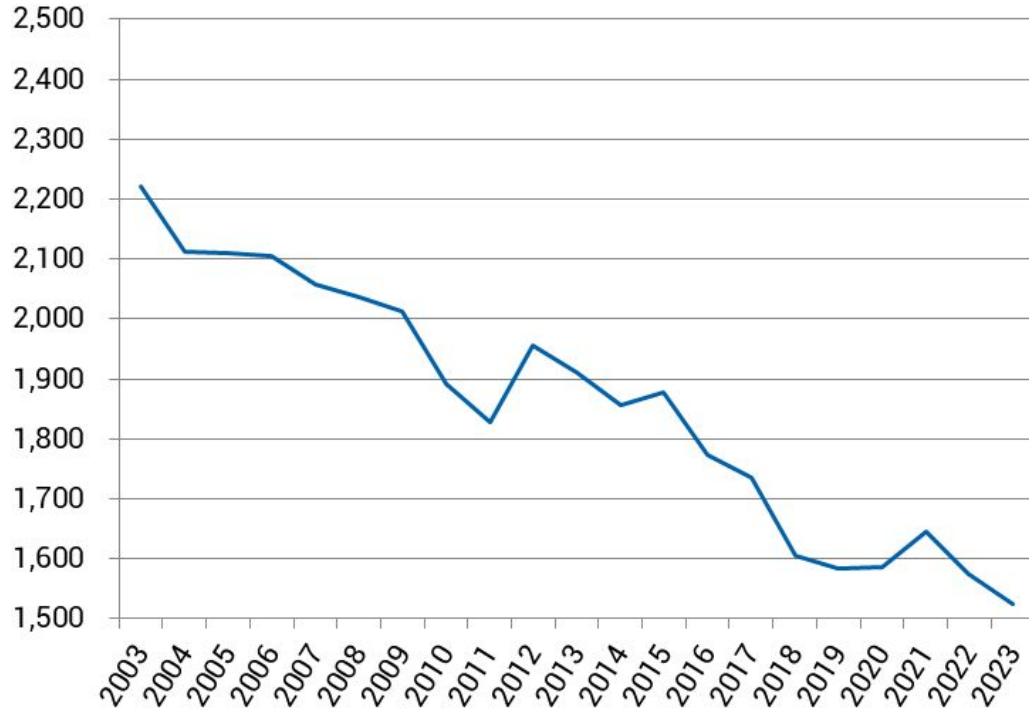

Accuracy

Decennial Census is the only population count by age group for BVSD without large margins of error.
