ENROLLMENT 2023

Overall Trends

Enrollment Trends 2013-2023

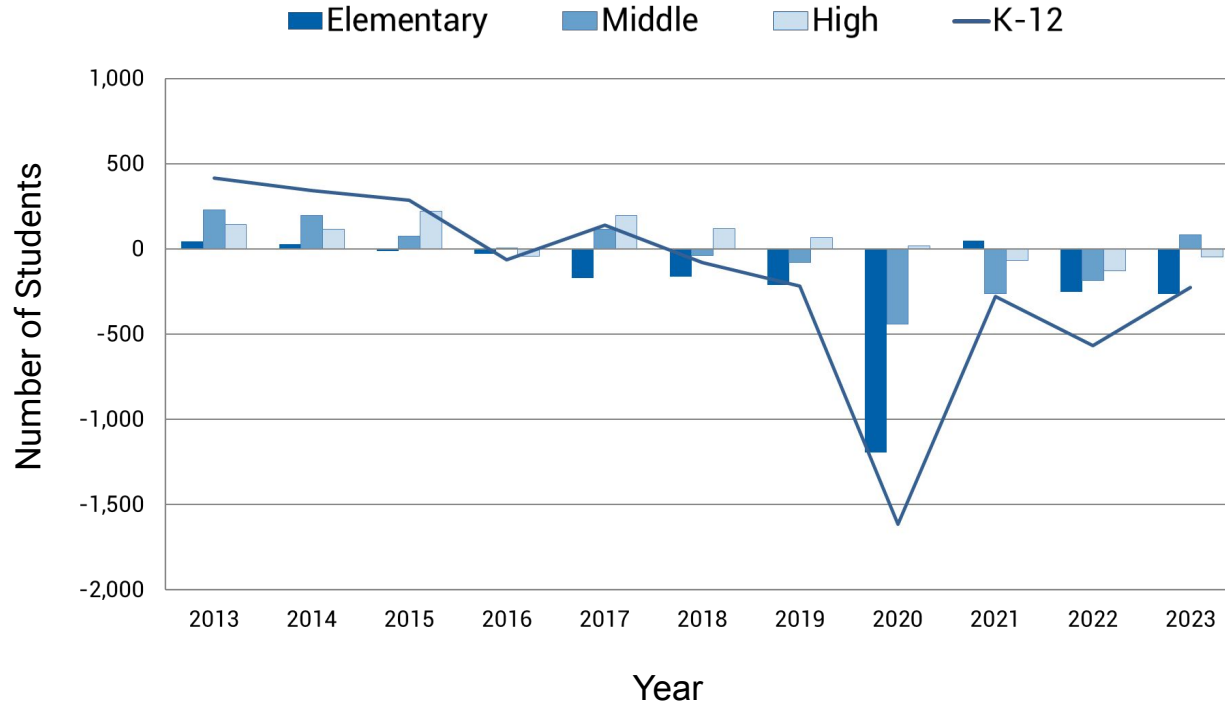

Take aways

- Continued overall decline of - 0.9%
- Decline not as steep as projected

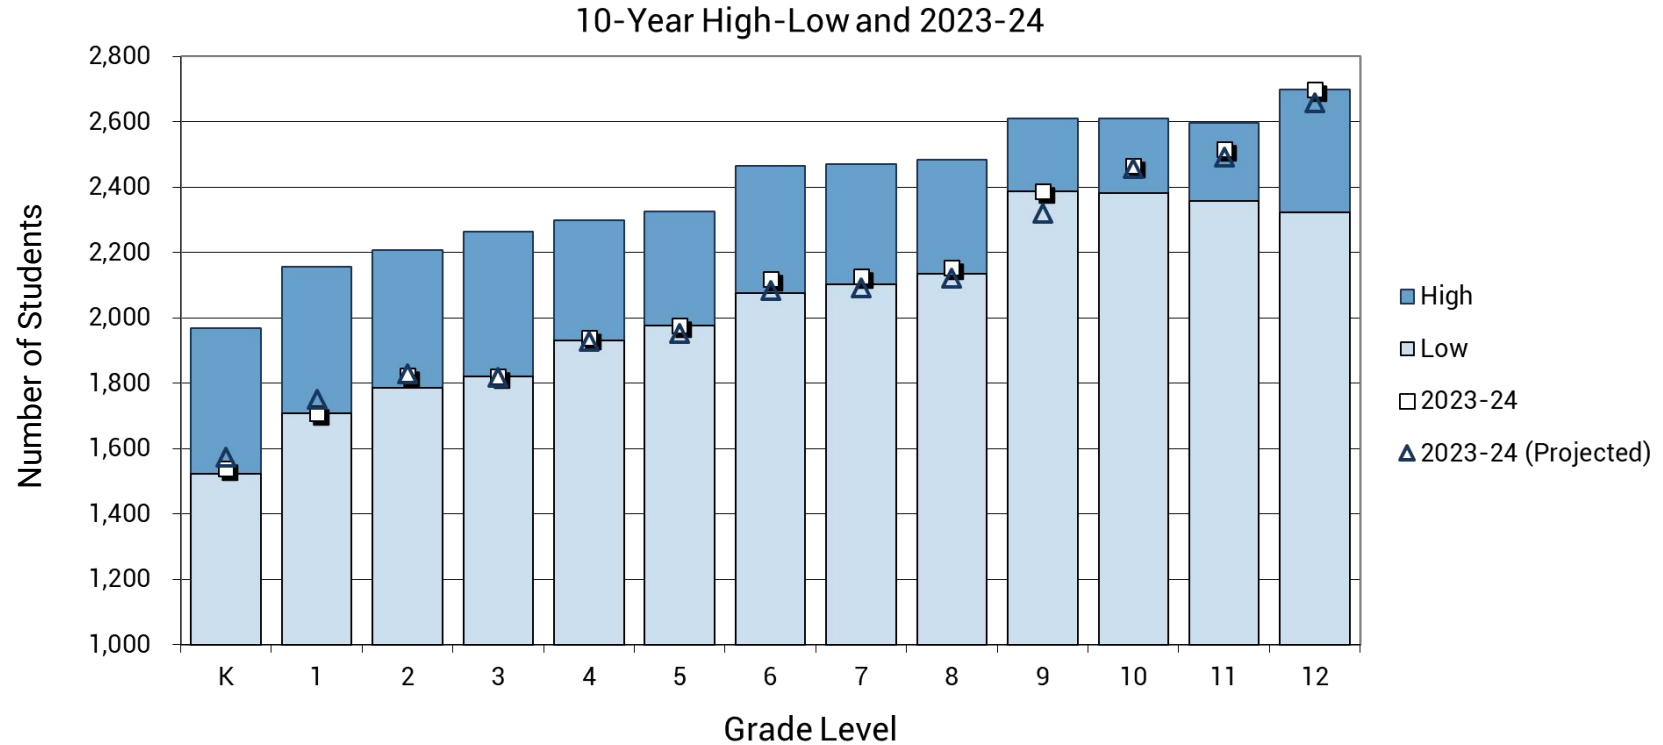

Annual Enrollment Change by Grade Level

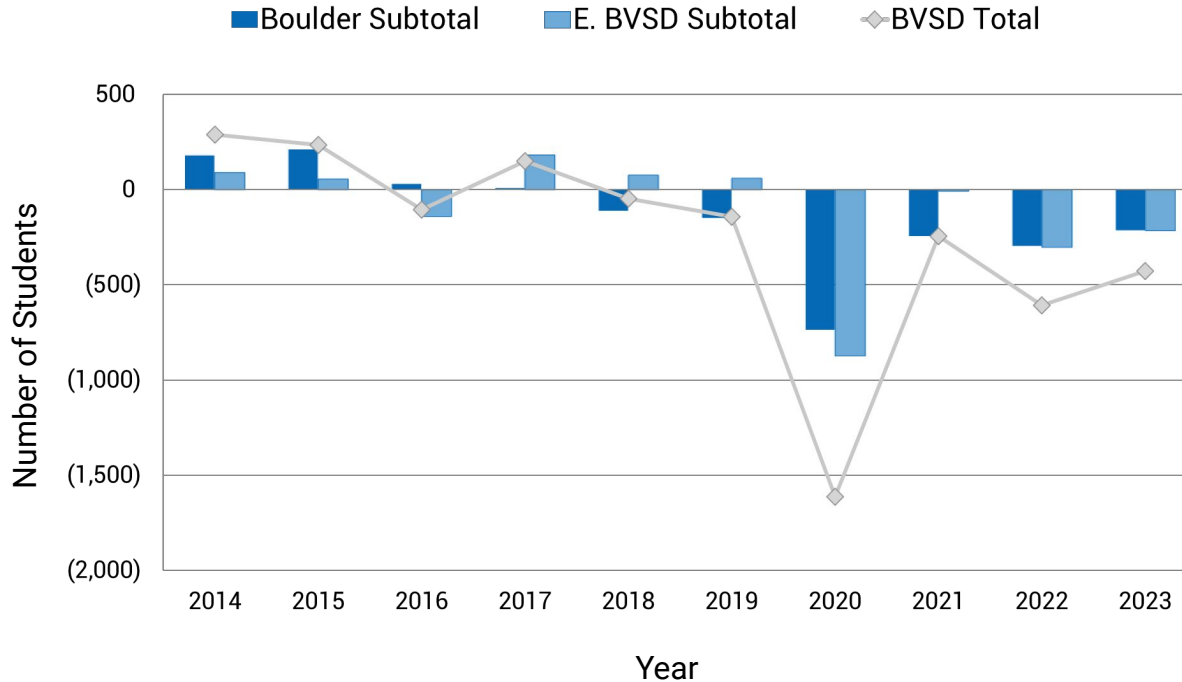

- 2023 losses concentrated at elementary (especially K)
- Unexpected middle level growth

BVSD Grade Distribution

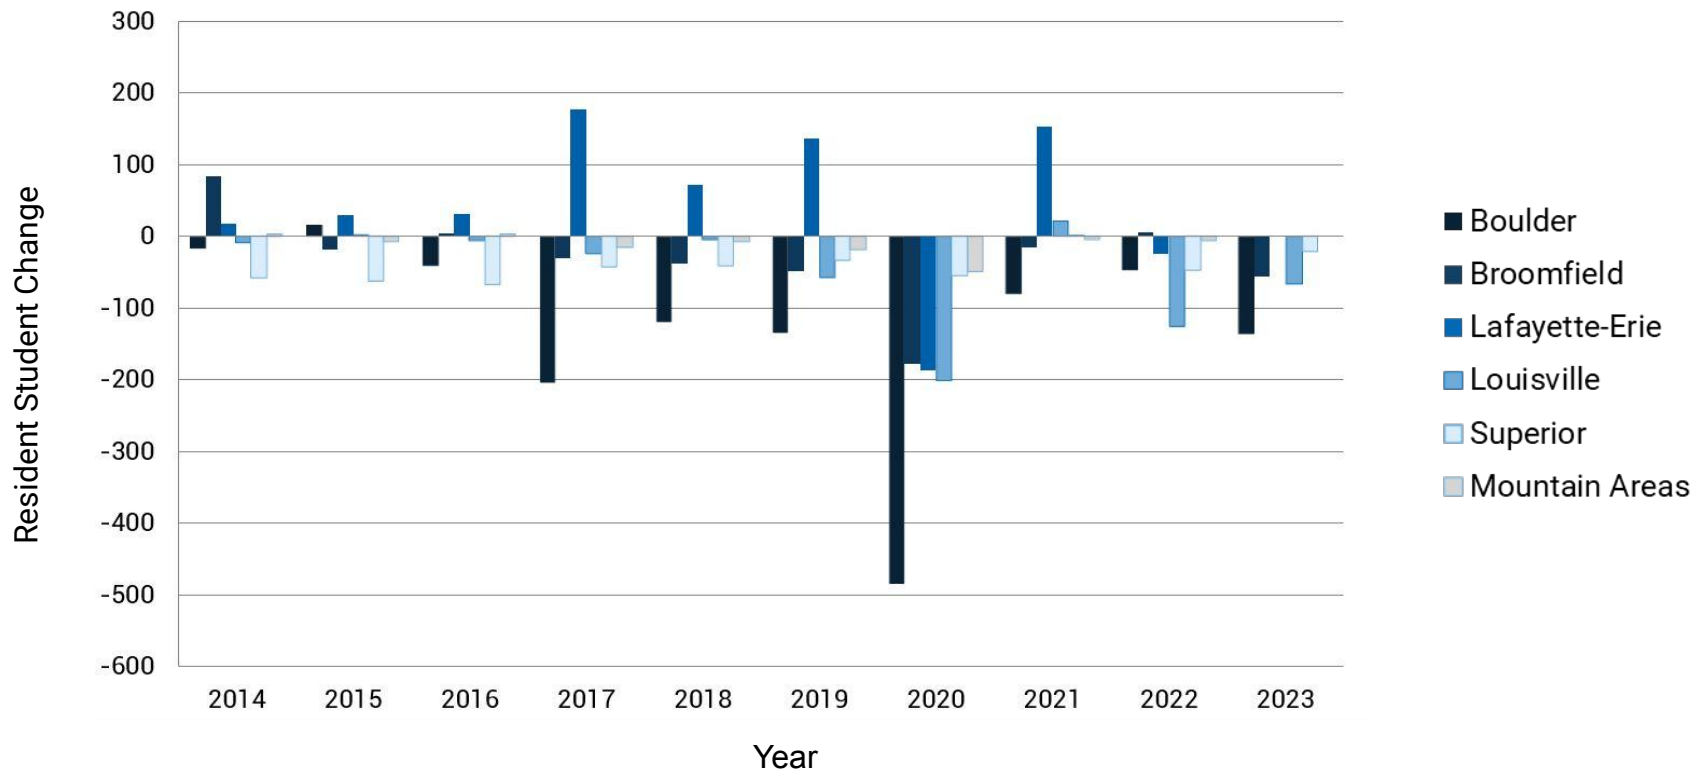

Regional Resident K-12 Student Change

- Boulder and East BVSD now contributing equal to decline
- East BVSD losses concentrated in Louisville/Superior

Resident Elementary Student Change by Community

ENROLLMENT 2023

Migration, Out-of-District, & Births

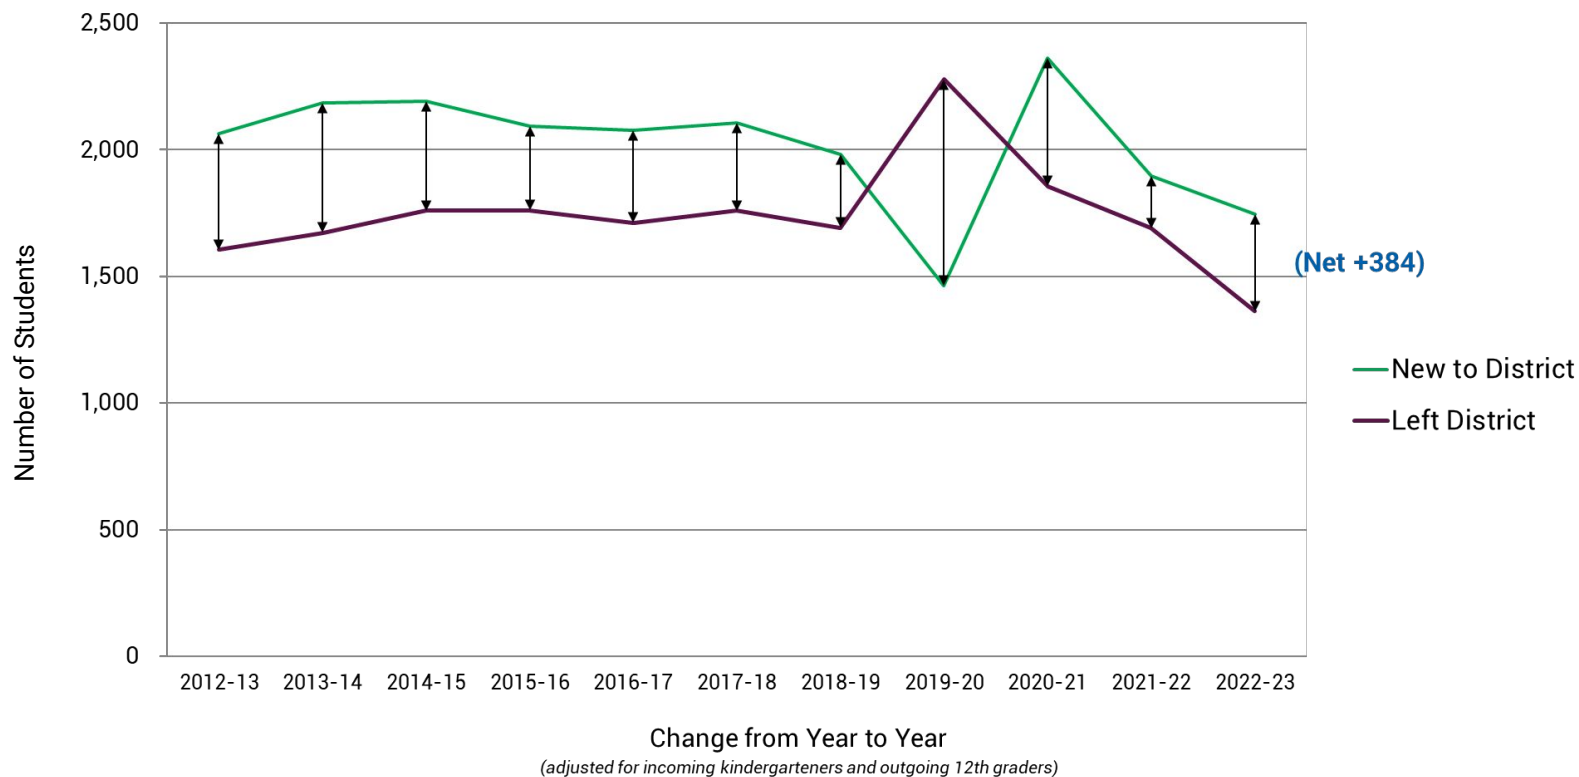

Out-of-District Enrollment

- Historic high level
- Biggest gains in high school, but also in other levels

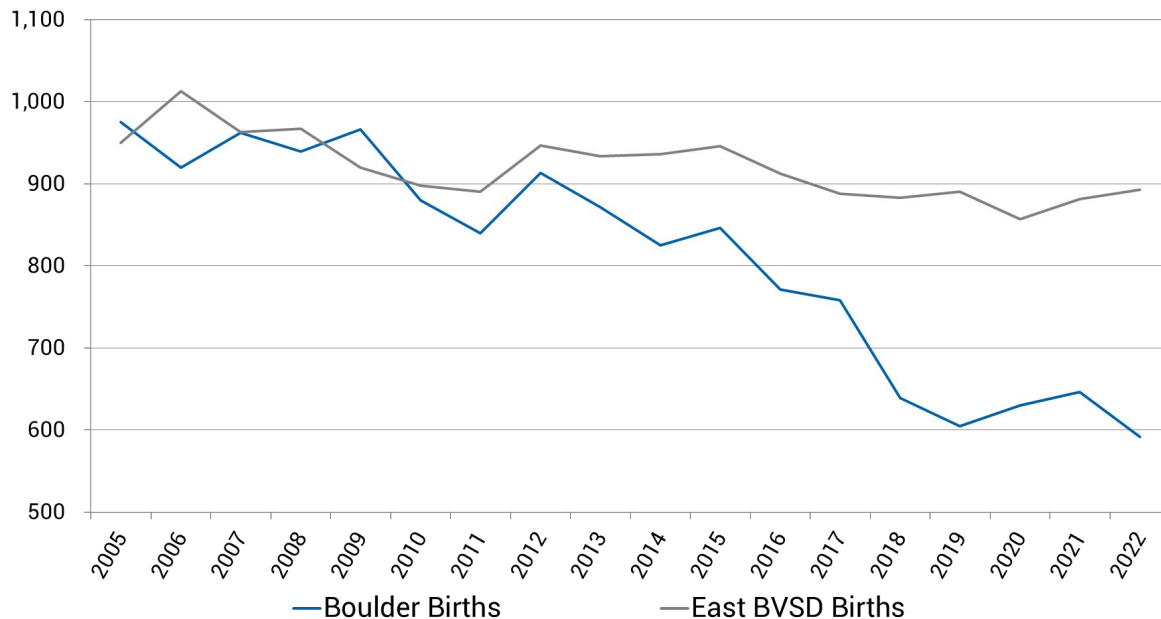

New and Leaving Resident Students 2010-2023

Birth Trends 2001 to 2021

Total Fertility Rate 2010/2020: 1.4/1.0

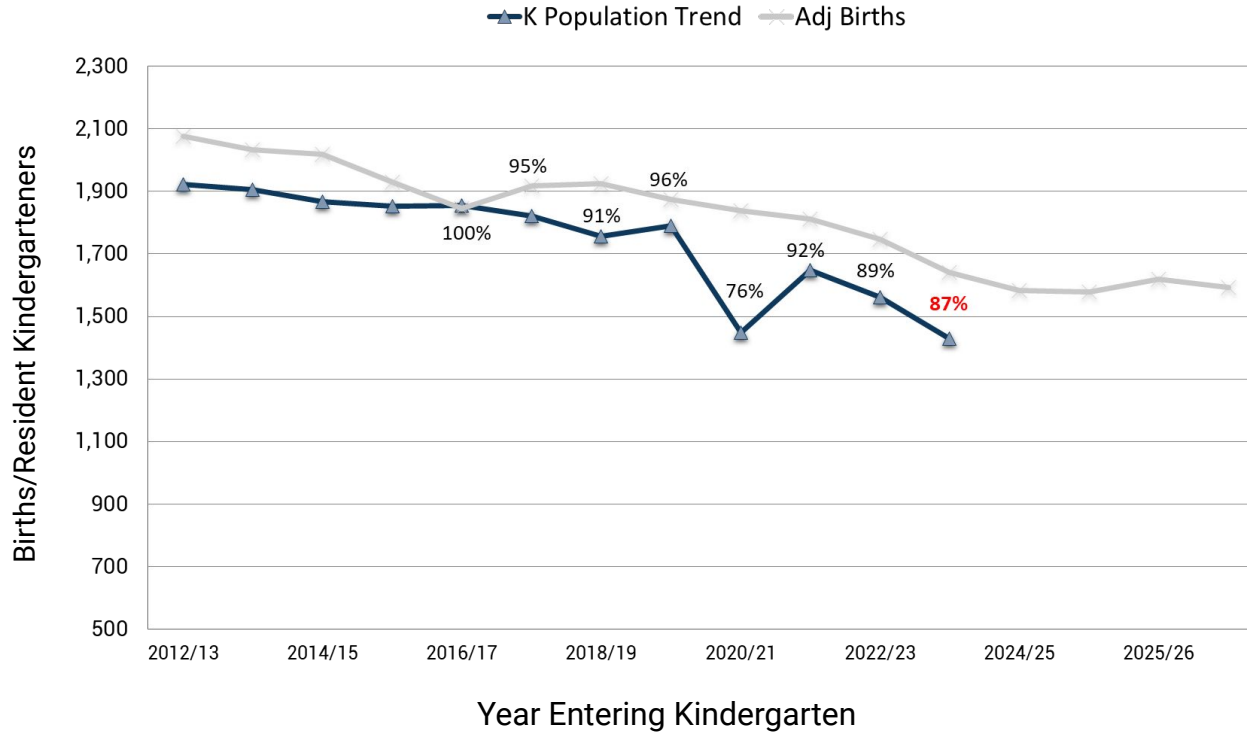

Takeaways

- Overall births in decline since 1999
- Eastern BVSD mostly levels after 2012 while Boulder continues decline to 2019
- Total fertility rate fell from 1.4 to 1.0 in 2020 Census

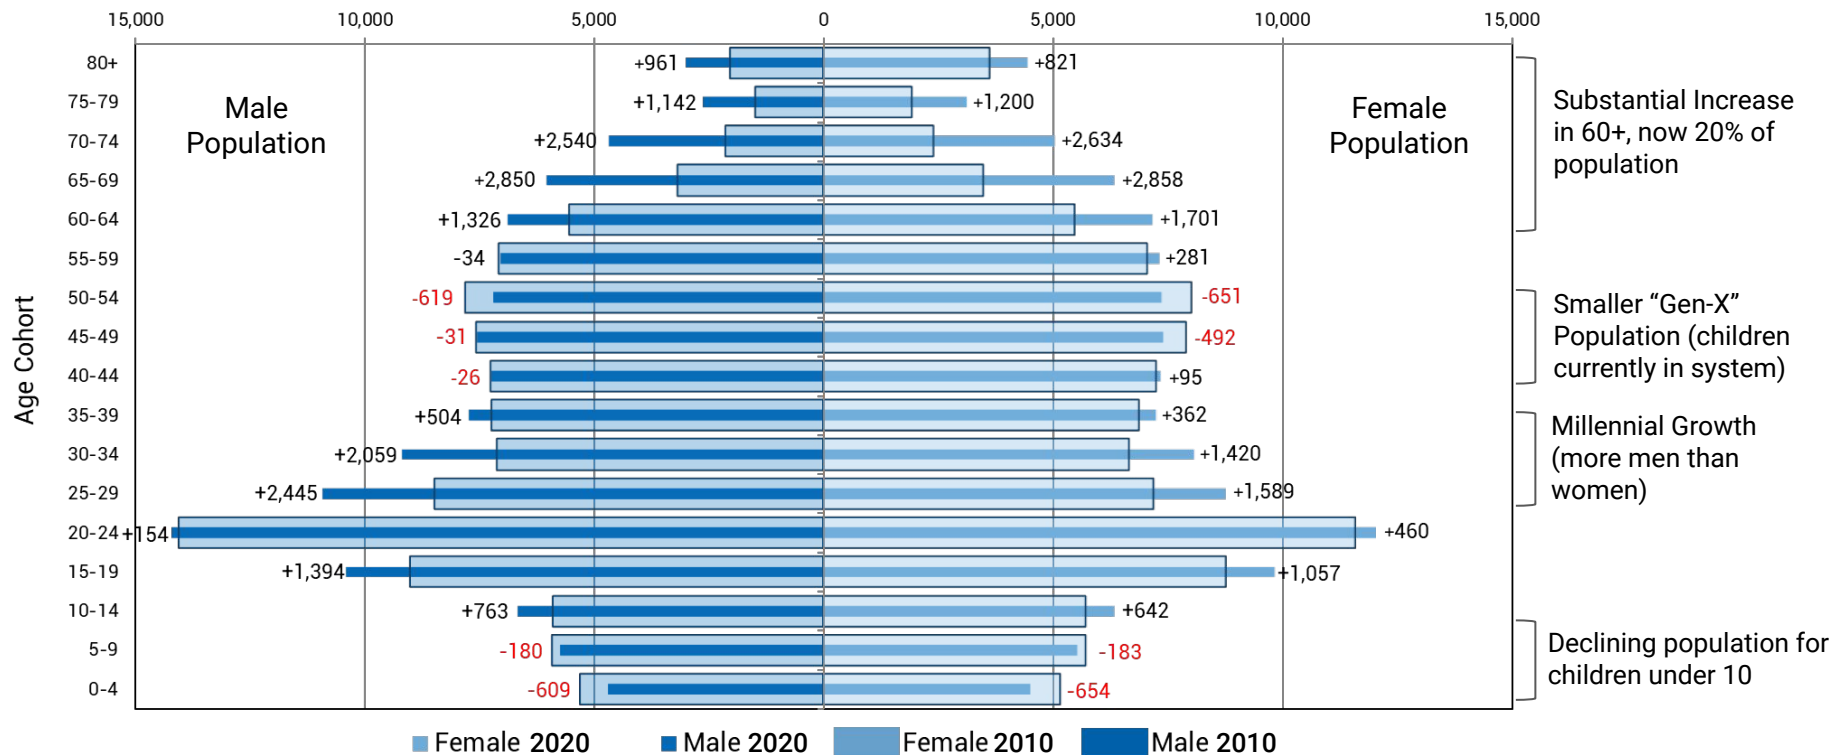

Adjusted Births and Resident K Trends

- Weaker link (%) between births and kindergarten in 2023
- Explanations include greater preference for other programs and/or low net migration

BVSD Population Change by Age Cohort 2010 to 2020

(from Census 2010 and Census 2020)

Summary

Summary

- Enrollment declined by -249/-0.9% over last year, but was better than expected.
- Elementary (esp. kindergarten) and high school levels saw declines in 2023. Middle level showed a surprising gain.
- Stronger resident student gains at middle school and 9th may be students re-entering the system after the pandemic.
- Out of District contributions to enrollment reached a historic high in 2023.
- Boulder, Louisville, and Superior largely driving enrollment declines, but typical offset from new housing growth in Lafayette/Erie not present 2022 or 2023.
- Births showing signs of leveling after a period of steep declines in Boulder.
- Stronger student “net migration” in 2023 and improvements in regional indicators.
