District Level Enrollment

2024-2025 School Year

Overview and Context

- Snapshot of 2024 enrollment
- Trends - how we got here
- Enrollment report information contributes to:
 - Enrollment projections
 - 2025-26 budget
 - Resource allocation
 - FTE
 - Facilities
 - Educational materials
 - Other committees and processes (i.e. LRAC, Bond)

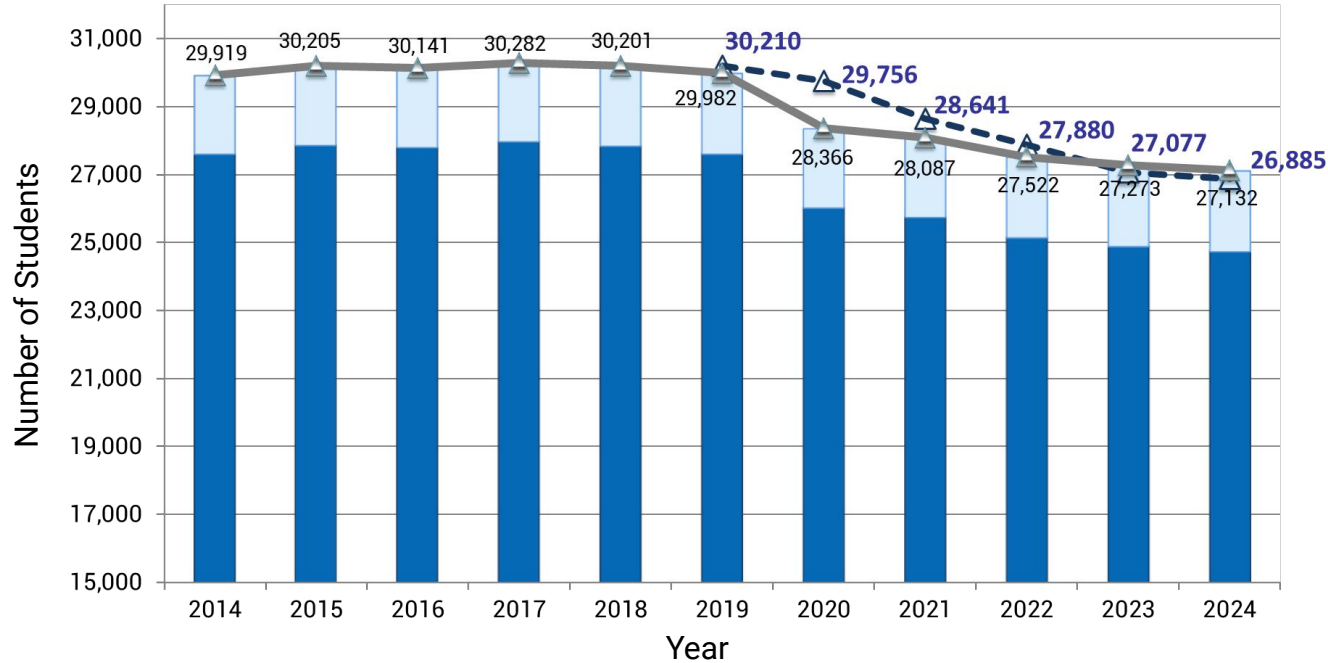

The background image shows a scenic mountain landscape. A paved trail leads from the bottom center towards a rocky mountain peak in the distance. A lone hiker is visible on the trail. The foreground is a lush green field with scattered trees. The sky is overcast with grey clouds. The text "Overall Trends 2024-25" is centered in a large, white, sans-serif font.

Overall Trends 2024-25

Enrollment Trends 2014-2024

General Enrollment Charter Enrollment Projected Total Enrollment

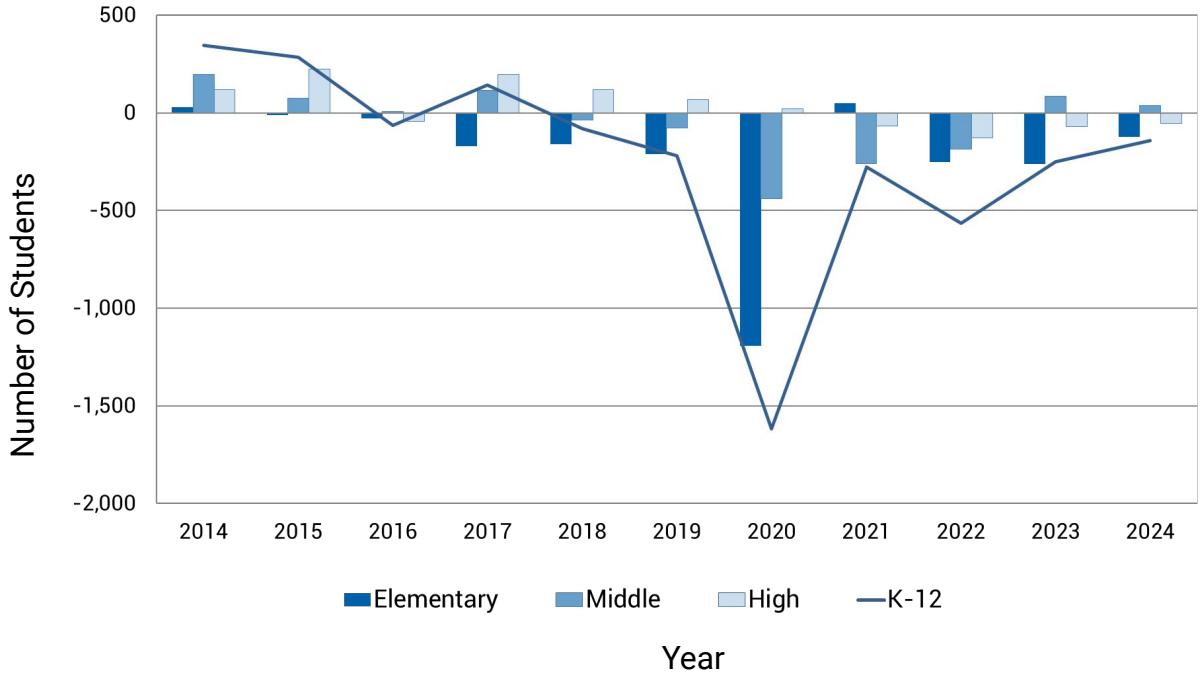

Take aways

- Continued overall decline of - 0.5%
- Decline not as steep as projected (-1.4%)
- Bolstered by recent migrants

Annual Enrollment Change by Level

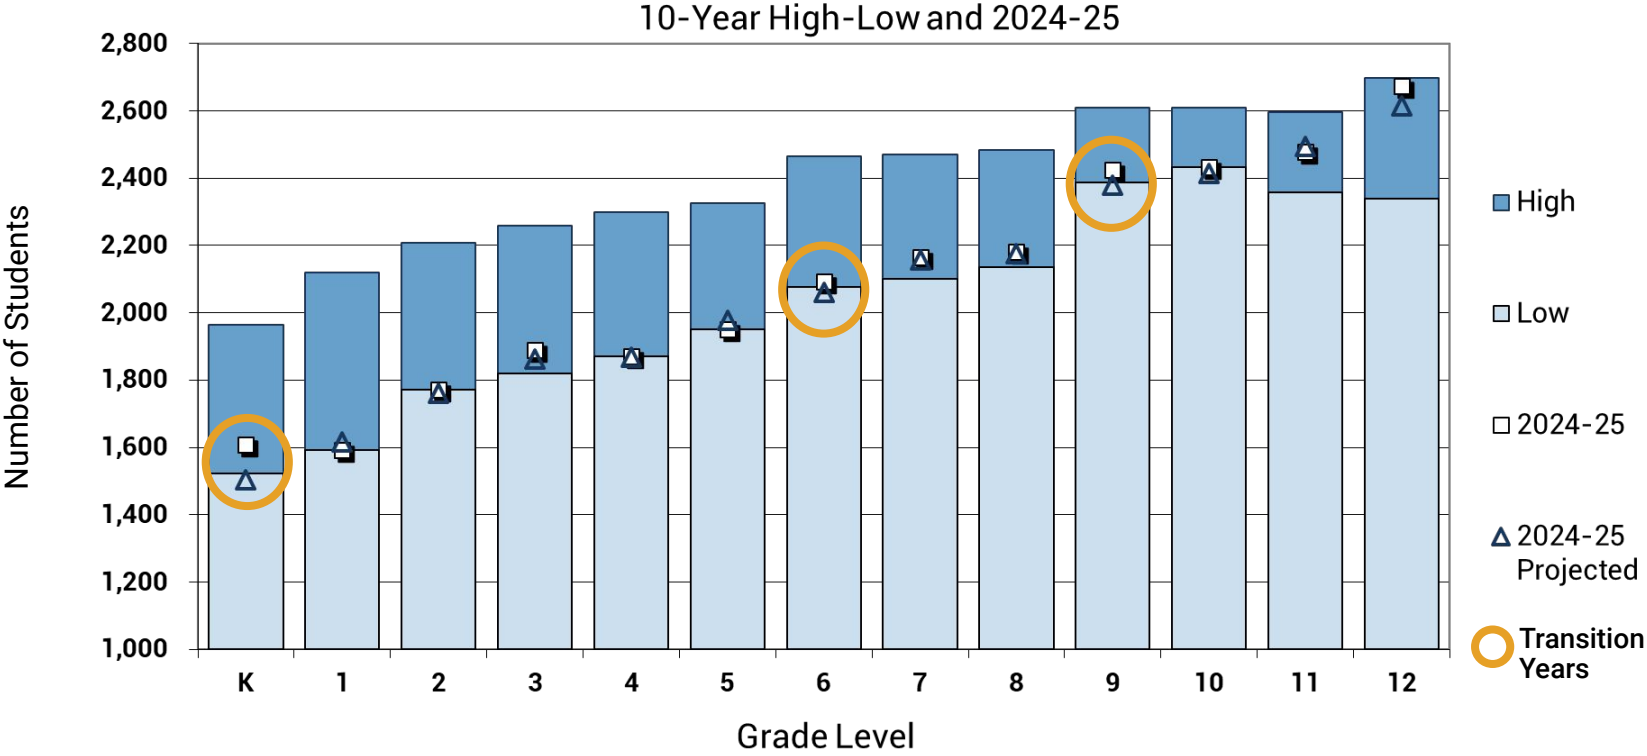

- 2024 losses greater at elementary
- Second year of unexpected middle level growth

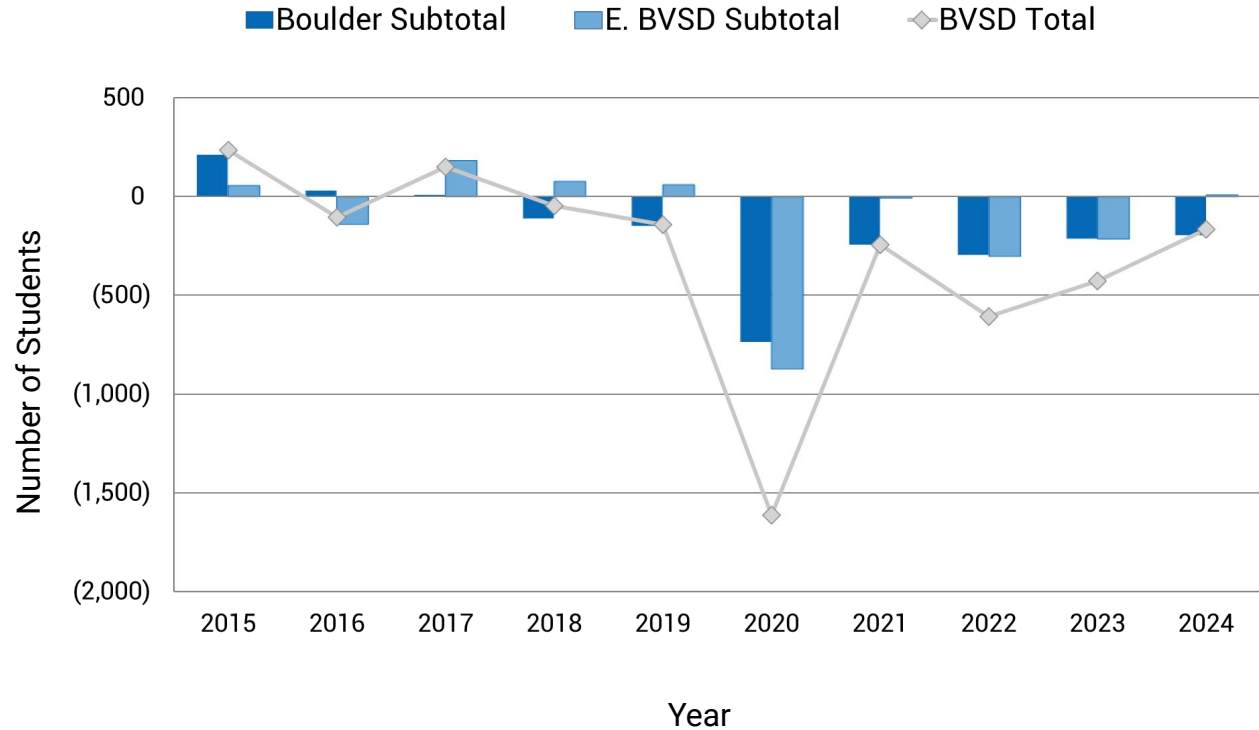

2024 Enrollment Trend

BVSD Grade Distribution

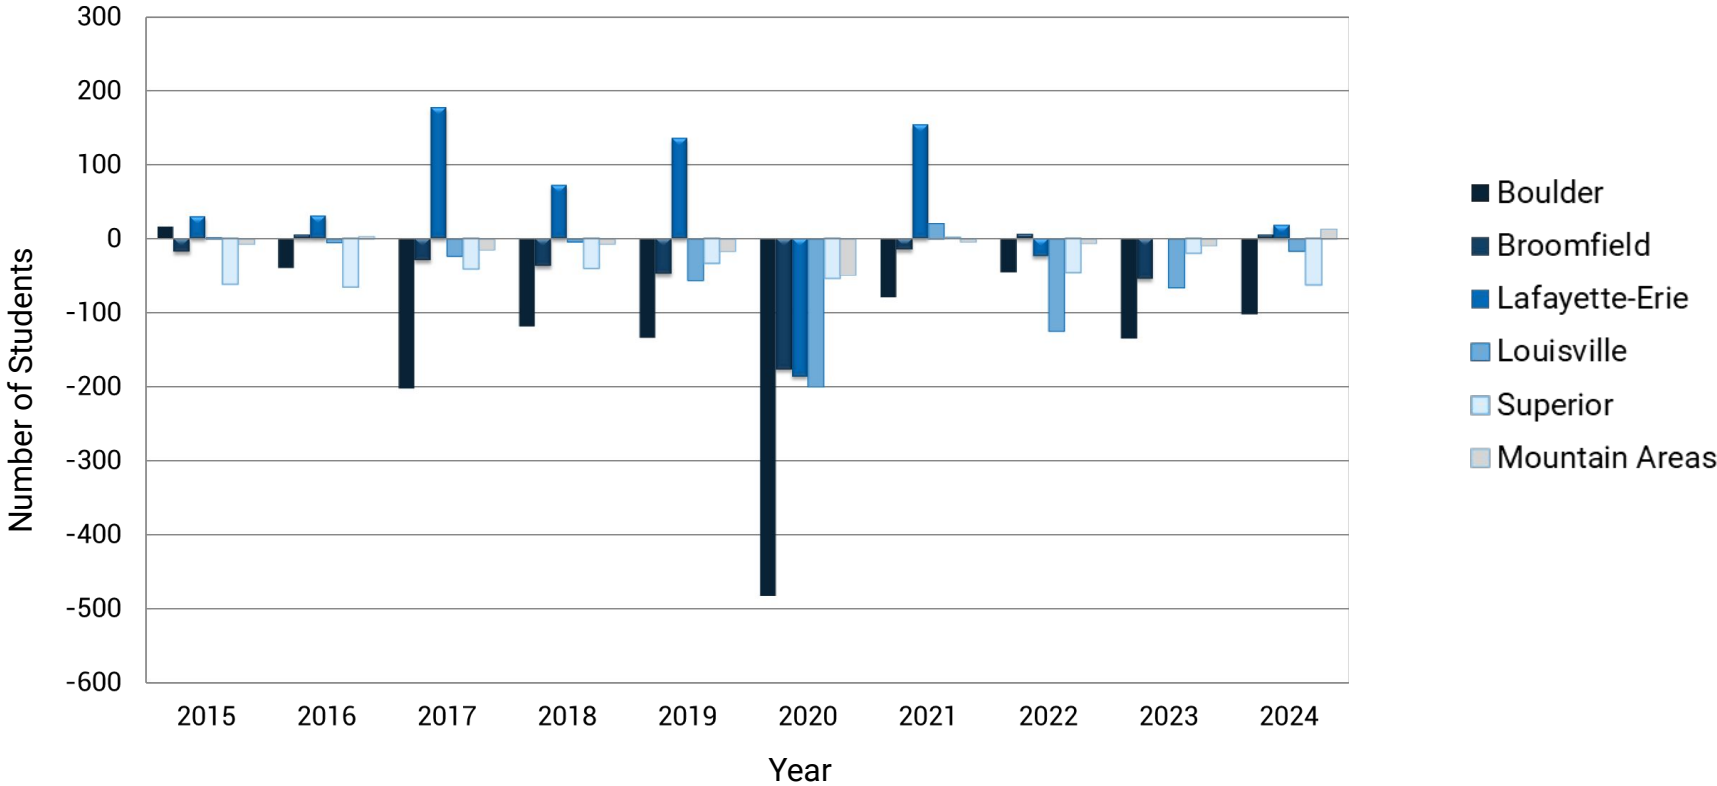

Regional Resident K-12 Student Change

- Losses in Boulder on par with previous 3 years
- Communities in eastern BVSD grew slightly in 2024
- Smallest loss since 2018

Resident Elementary Student Change by Community

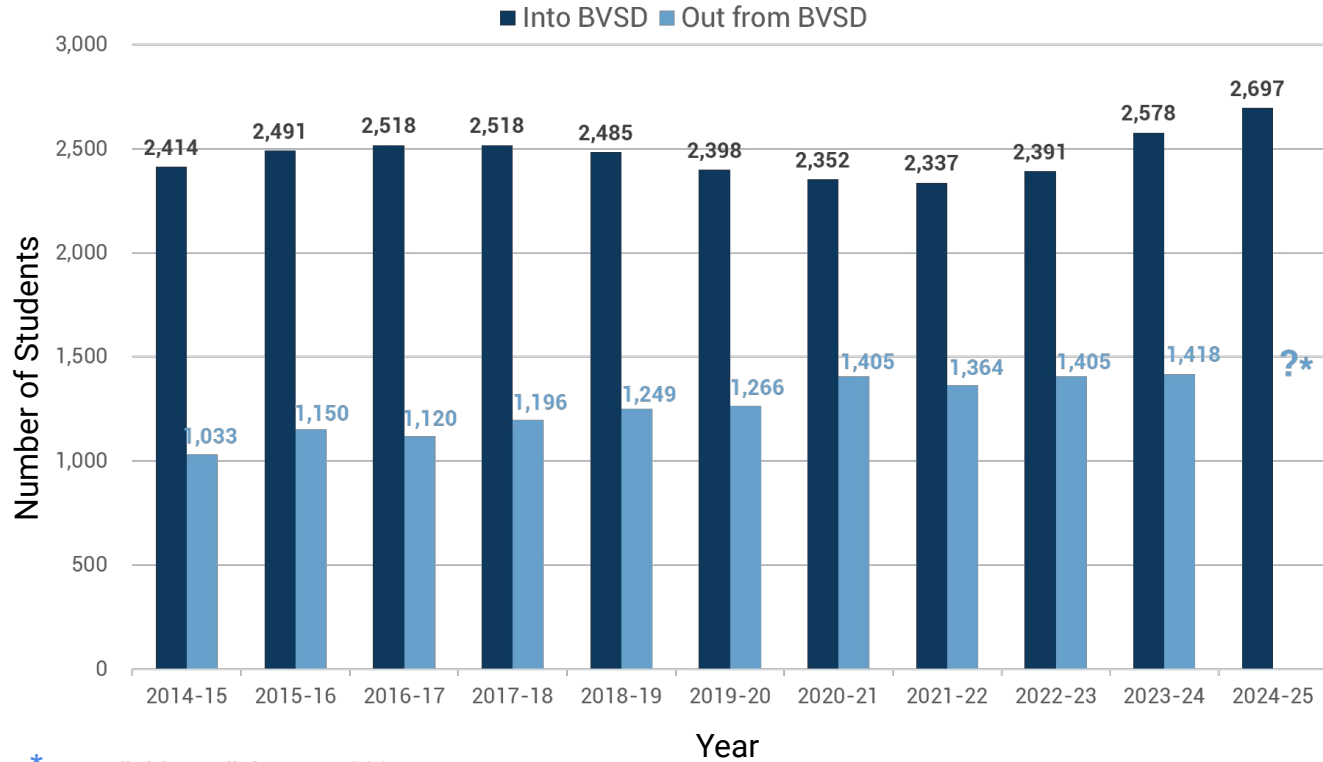

A black and white photograph of three hikers walking away from the camera on a dirt trail. They are wearing backpacks and casual outdoor clothing. The hiker in the center has a backpack with a 'Fjällräven Kånken' logo. The background shows tall grass and a small wooden structure.

Migration, Out-of-District, & Births

2024 Enrollment Trend

Inter-District Enrollment (w/PK)

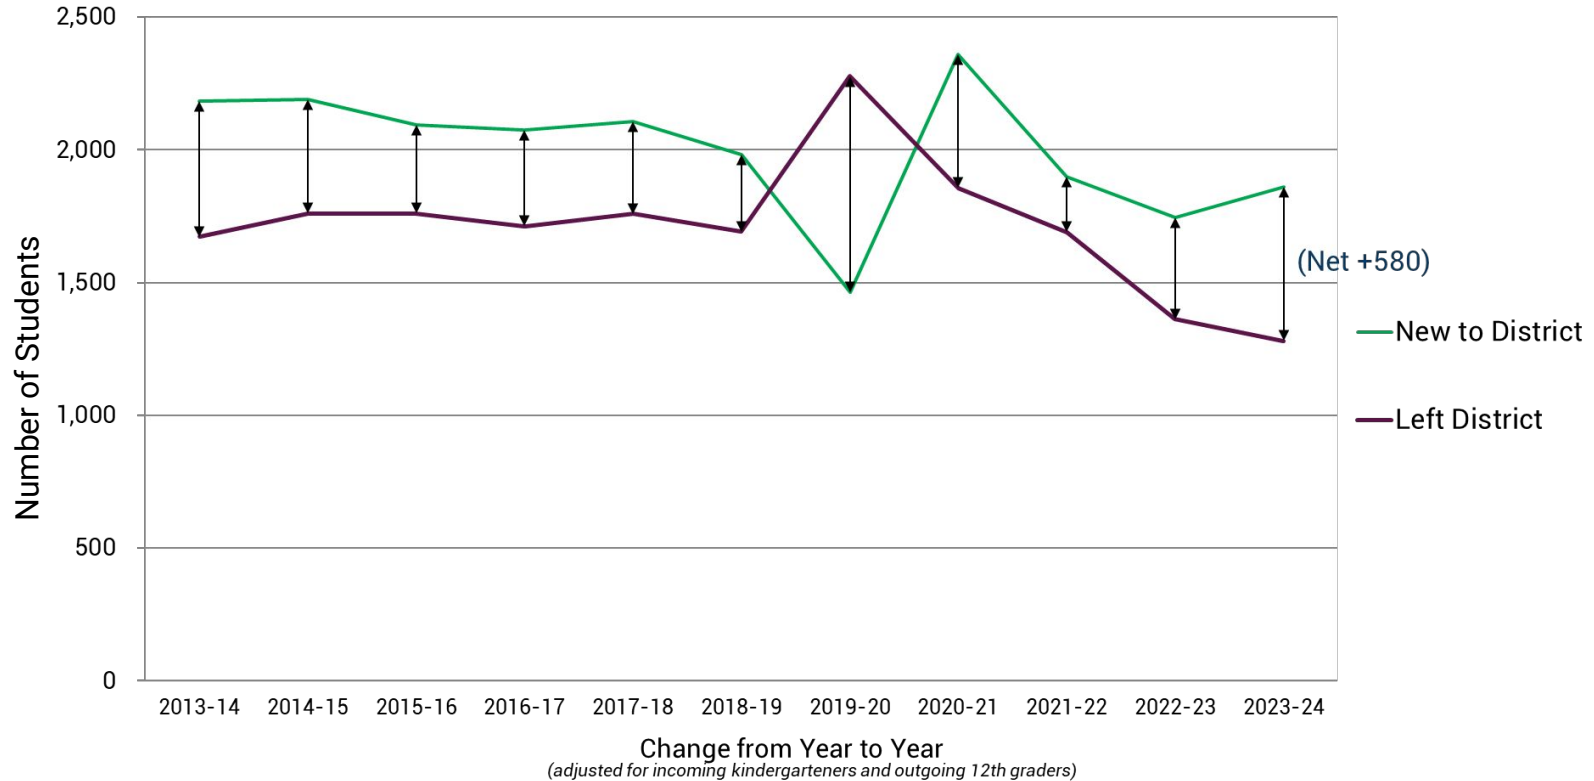

(source: Colorado Dept. of Education)

- Second year of historic high levels into BVSD
- New out-of-district not quite as high as last year's level

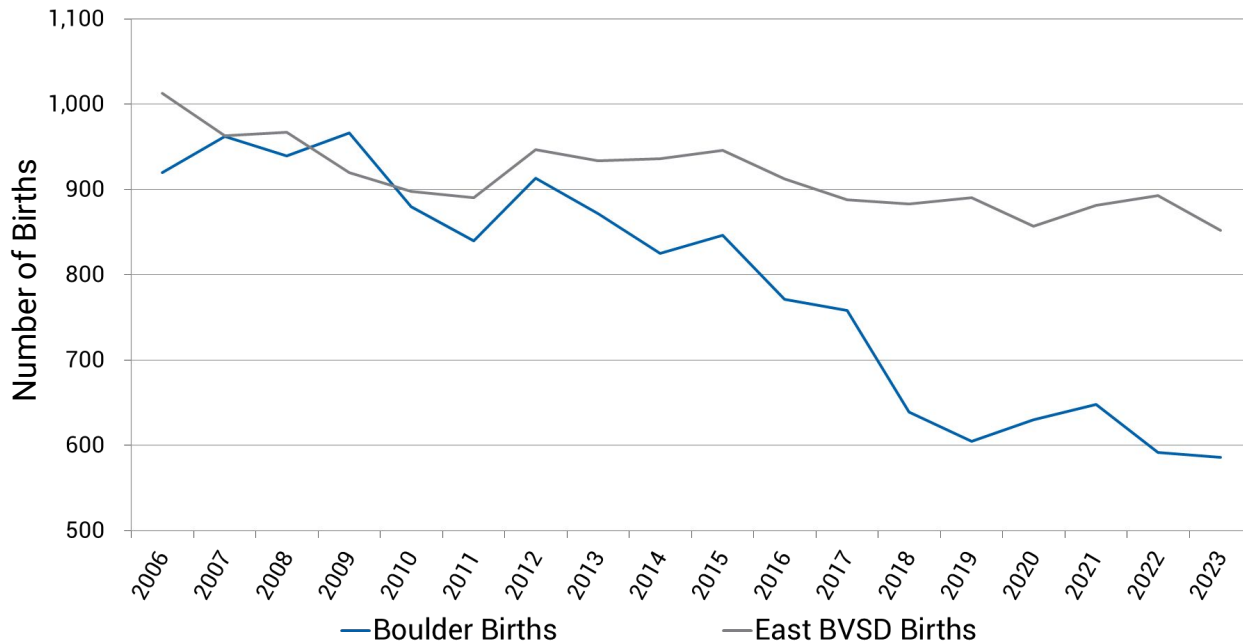

New and Leaving Resident Students 2013-2024

Birth Trends 2004 to 2024

Total Fertility Rate 2010/2020: 1.4/1.0

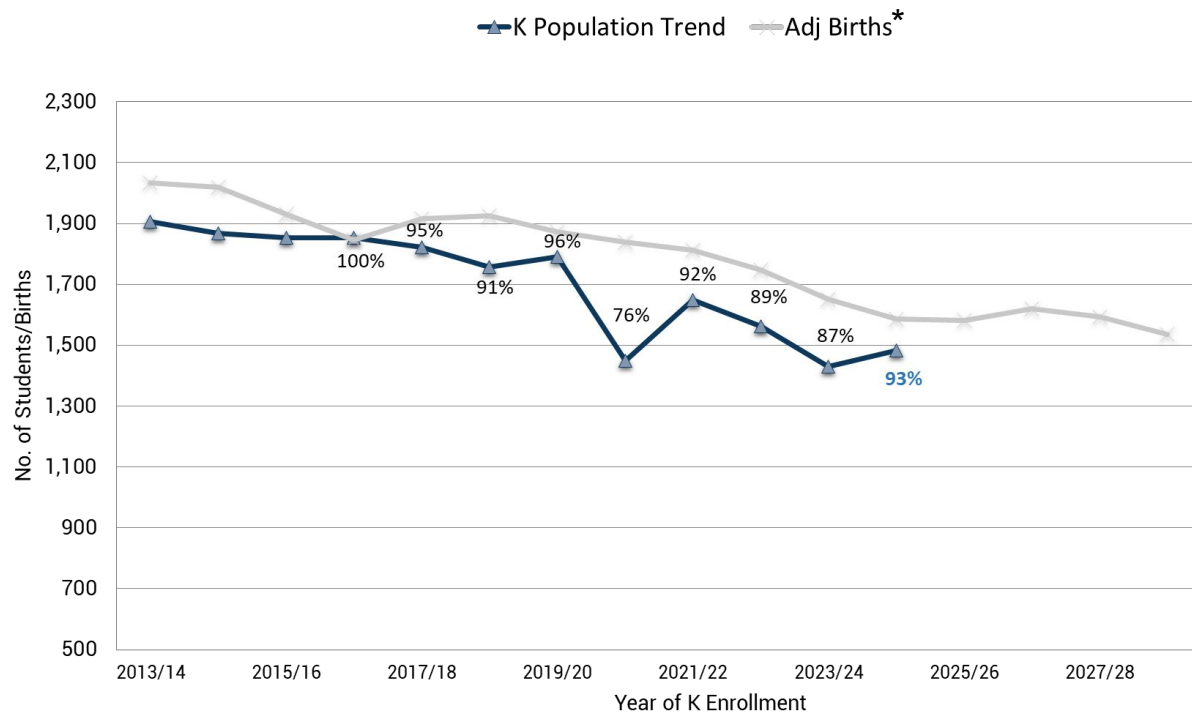

Take aways

- Overall births in decline since 1999
- Eastern BVSD mostly levels after 2012 while Boulder continues decline to 2019
- Total fertility rate fell from 1.4 to 1.0 in 2020 Census

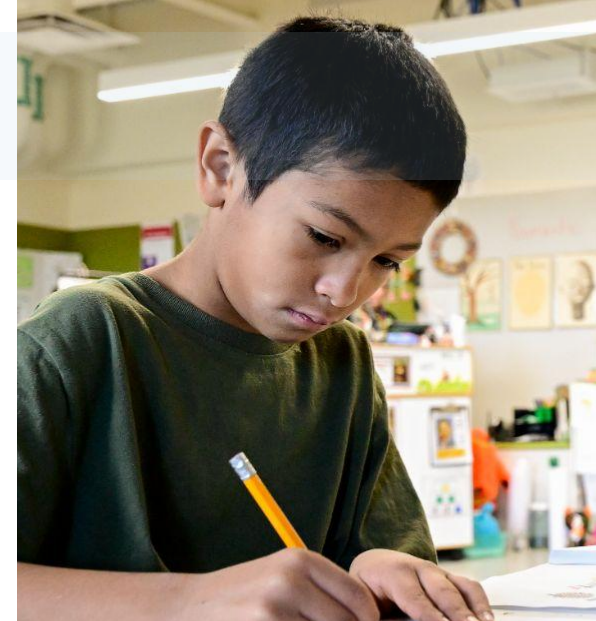

2024 Enrollment Trend

Births and Kindergarteners

*births occurring 5 to 6 years prior to kindergarten class.

- Rebound in link (%) between births and kindergarten in 2024
- New migrants may have added some kindergarteners

Summary

- Enrollment declined by -141/-0.5% over last year, but was better than expected.
- Elementary and high school levels saw declines in 2024. Middle level saw a second year of surprising gains. Kindergarten (1,609) was the largest since the pandemic.
- Stronger resident student gains at middle school may still be from students re-entering the system after the pandemic.
- Out of District contributions to enrollment in 2024 was close to last year's historic high.
- Boulder, Louisville, and Superior largely driving enrollment declines, but Lafayette/Erie showed modest growth in 2024.
- Births showing signs of leveling after a period of steep declines in Boulder.
- Stronger student "net migration" in 2024.
