SUMMARY

- Primary factors for 2016 loss:
 - Large outgoing 12th grade class
 - Weak in-migration among BVSD's resident students concentrated at the high school level
- Other factors influencing negative growth:
 - Fewer than anticipated housing units built in 2016 (project delays).
 - Out-of-District population grew at a lower rate than expected; had fewer new applicants.
 - Low inventory in the existing housing market.
 - Regional enrollment growth down with other districts
- In-coming resident kindergarteners low, but on par with recent years.
- Positive Growth next year (2017) more likely with:
 - Small departing 12th grade class
 - A significant increase in the correlating births from 2011-12
 - A larger number of new houses coming on-line.
- 2018 forward will have more limited growth potential as class sizes stabilize across all grade levels.
