Enrollment Report 2021

# 2020 COVID-19 Background

## 2020 COVID-19 Impacts

**Total Enrollment Loss 2019 to 2020 = -1,616**

**Components Associated with Covid-related Decline:**

|                                   |       |
|-----------------------------------|-------|
| 2019-20 Expected Decline          | - 226 |
| K decline                         | - 371 |
| Expected New G1-12 Stdts          | - 517 |
| Private/O.O.D. Home School Exits* | - 310 |
| In-District Home School Exits*    | - 183 |
| Unknown Exits*                    | - 94  |

---

|       |         |
|-------|---------|
| TOTAL | - 1,701 |
|-------|---------|

*\* difference from typical 3 year average*

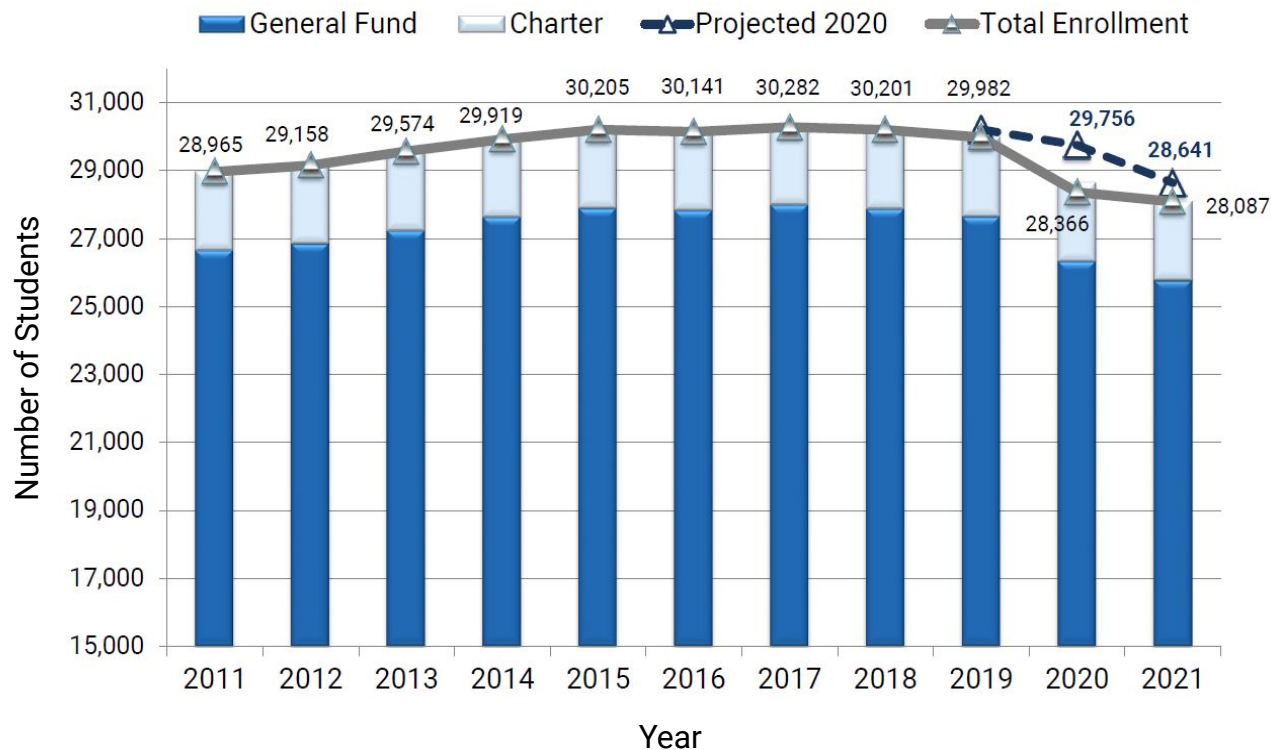

*(Note: Exits to other school districts in or out of state were typical.)*

Enrollment Report 2021

# Overall Trends

# Enrollment Trend 2011-2021

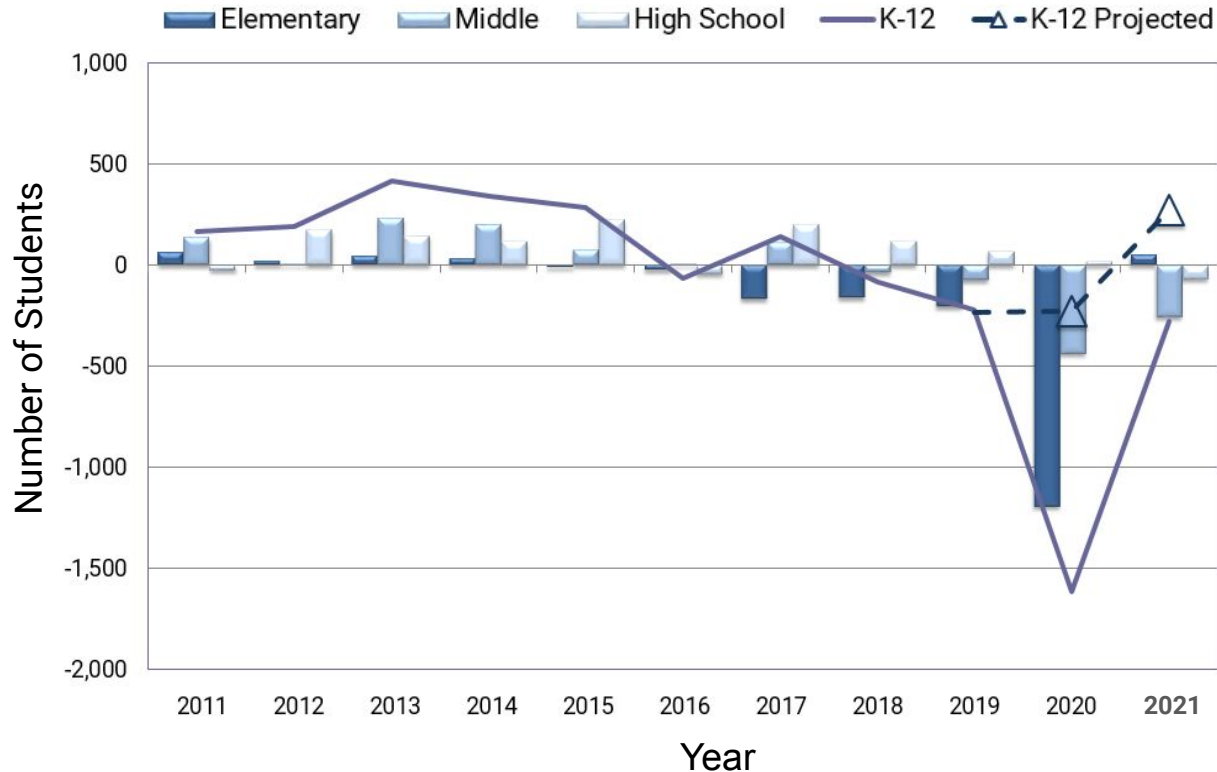

## Take aways

- Expect to continue moderate decline
- COVID impacts on top of expected decline

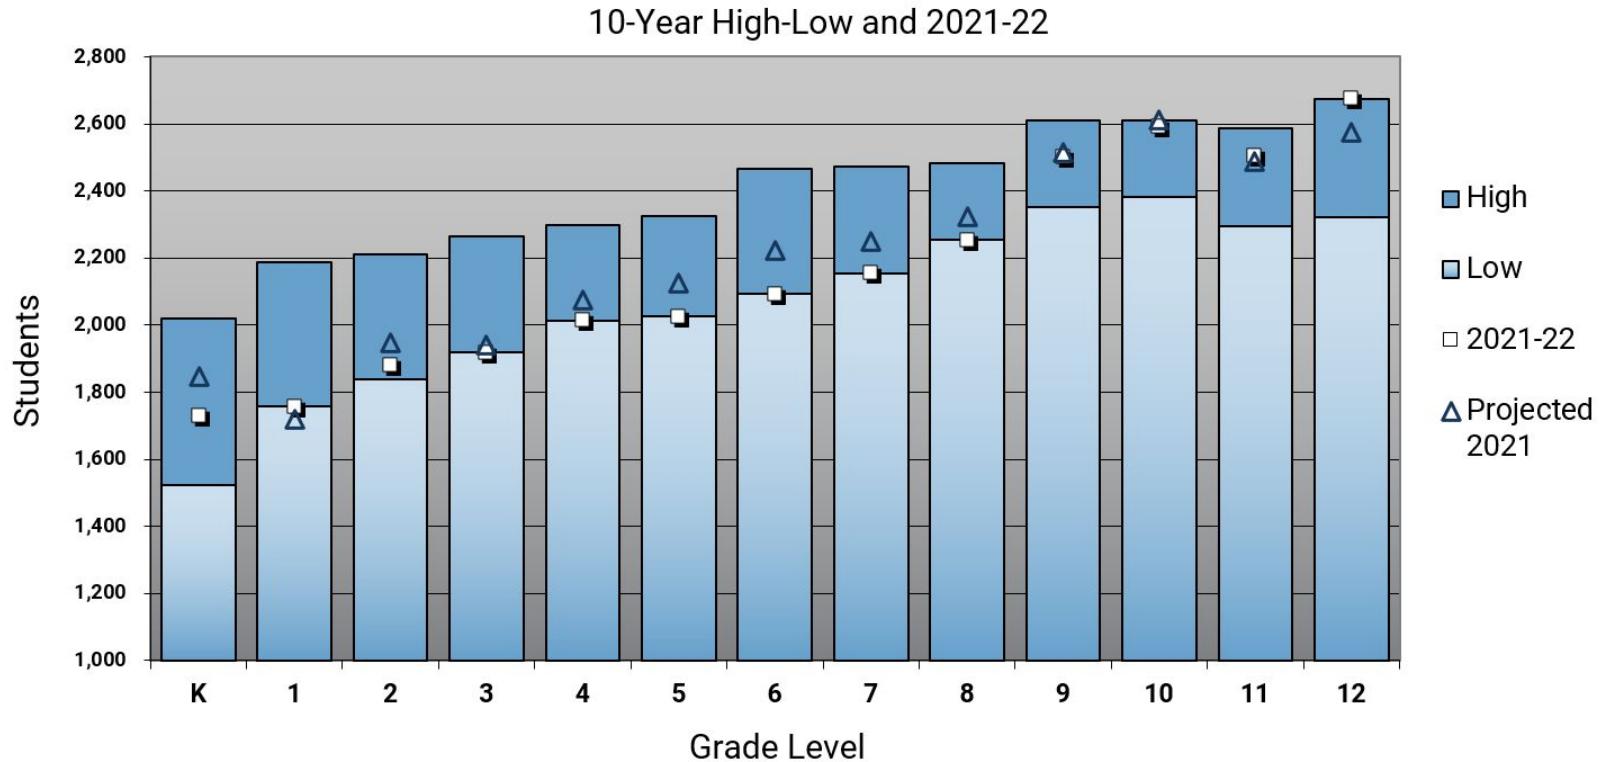

# Annual Enrollment Change by Grade Level

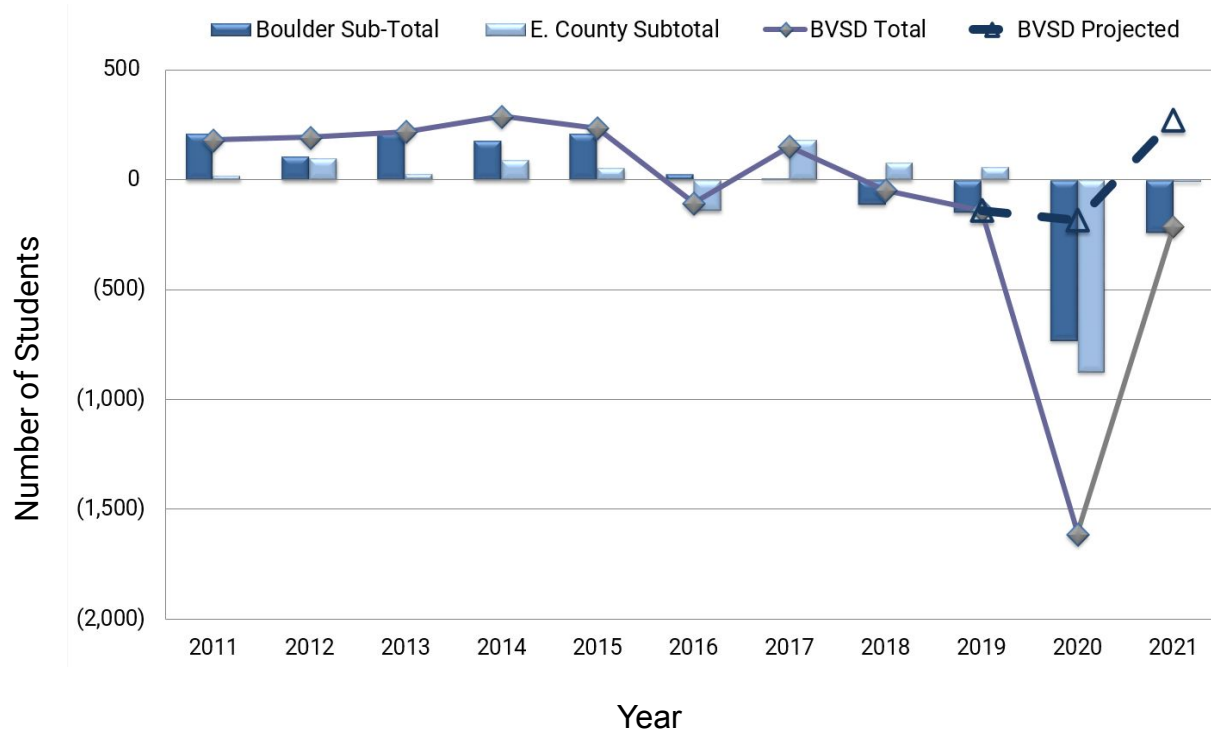

- Year over year loss at ES continuing.
- 2021 loss concentrated at MS, with ES seeing a modest bounce.
- Needed larger gain at ES and MS to offset 2020 losses.

# BVSD Grade Distribution

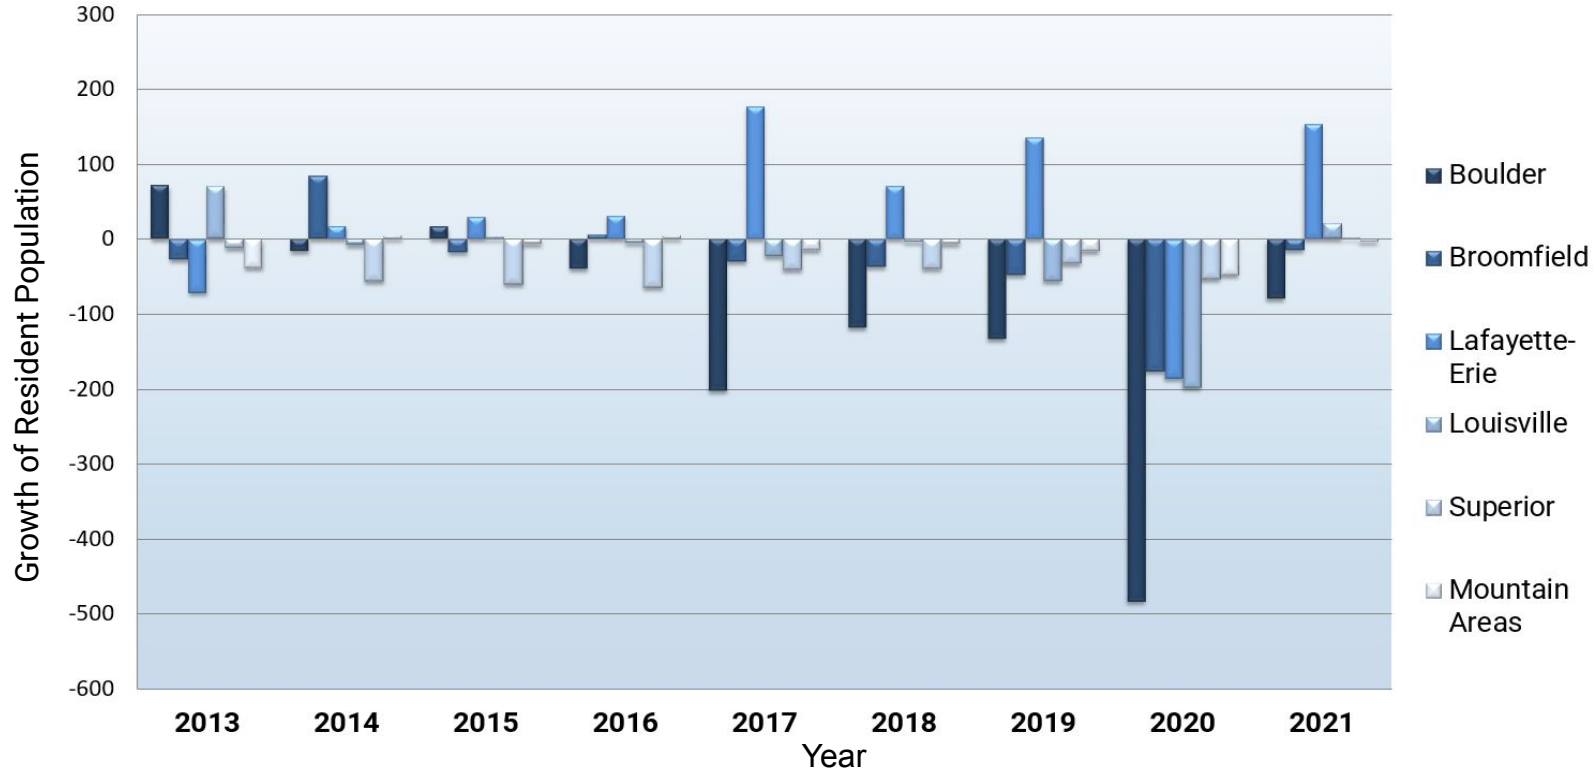

# Regional Resident K-12 Student Change

- Past resident growth concentrated in Boulder, which now drives BVSD's losses.
- COVID recovery stronger in East BVSD communities.

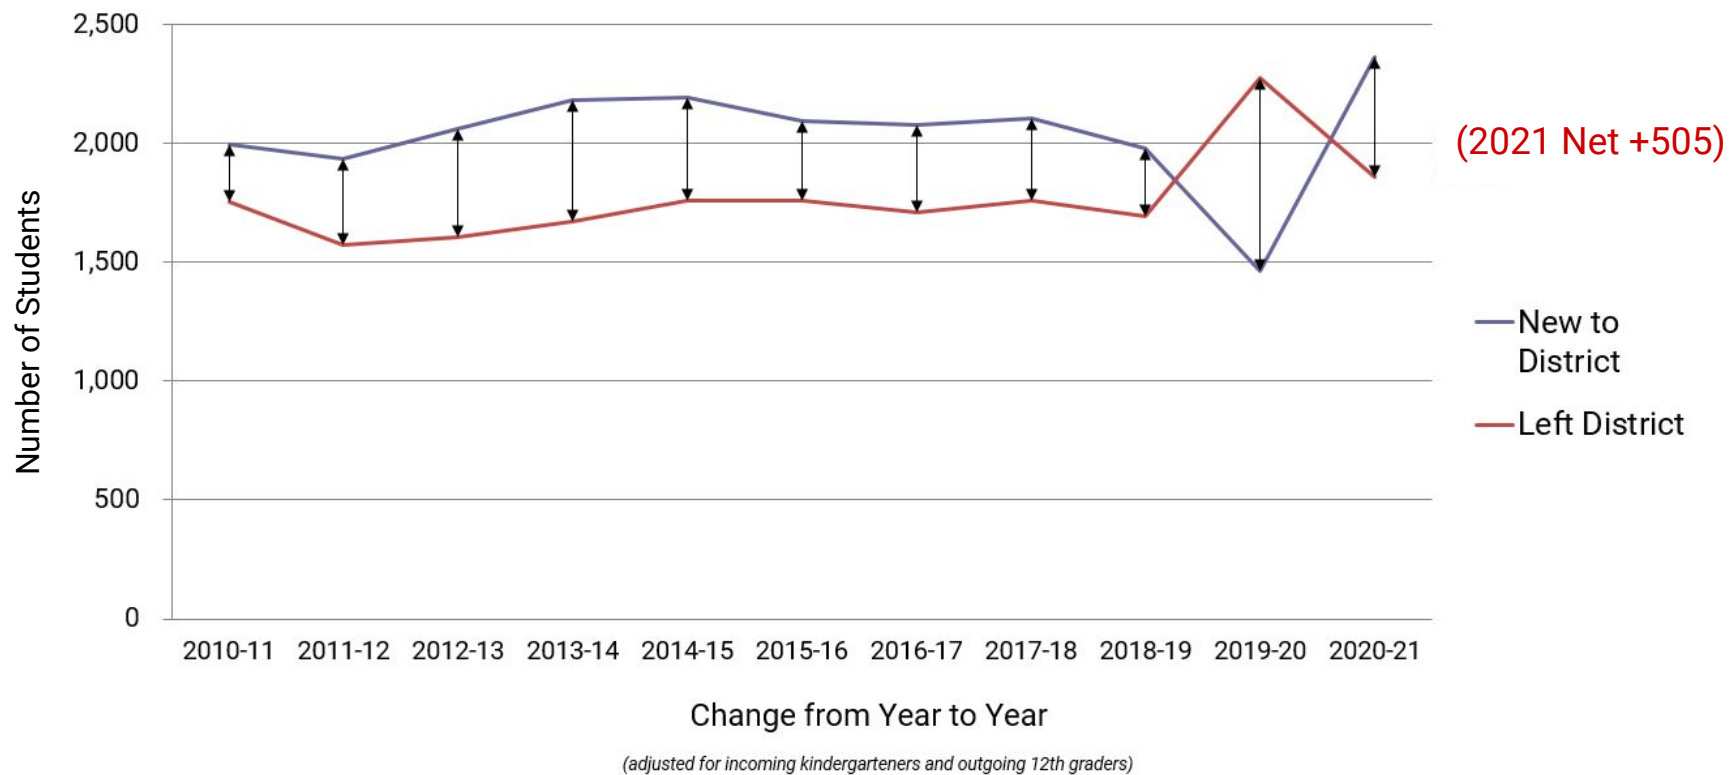

# Resident Elementary Student Change by Community

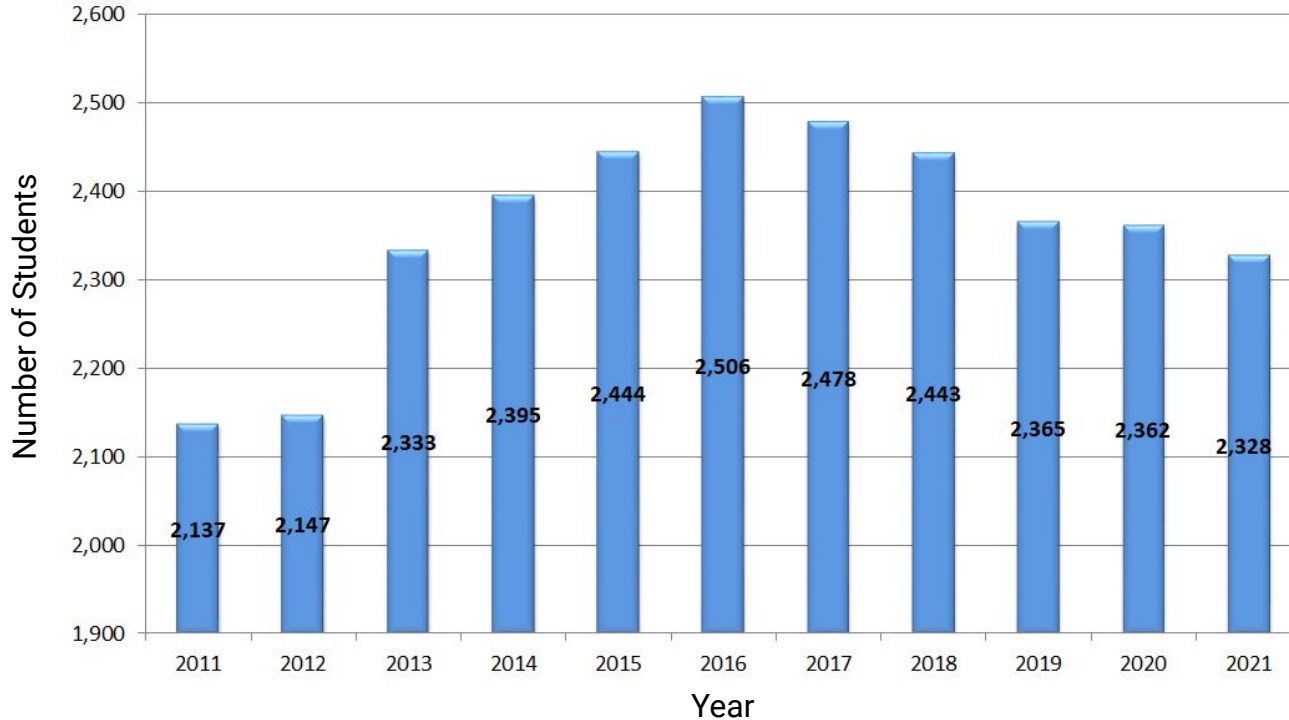

ENROLLMENT 2021

# Migration, Out-of-District, and Births

# New and Leaving Resident Students 2008-2021

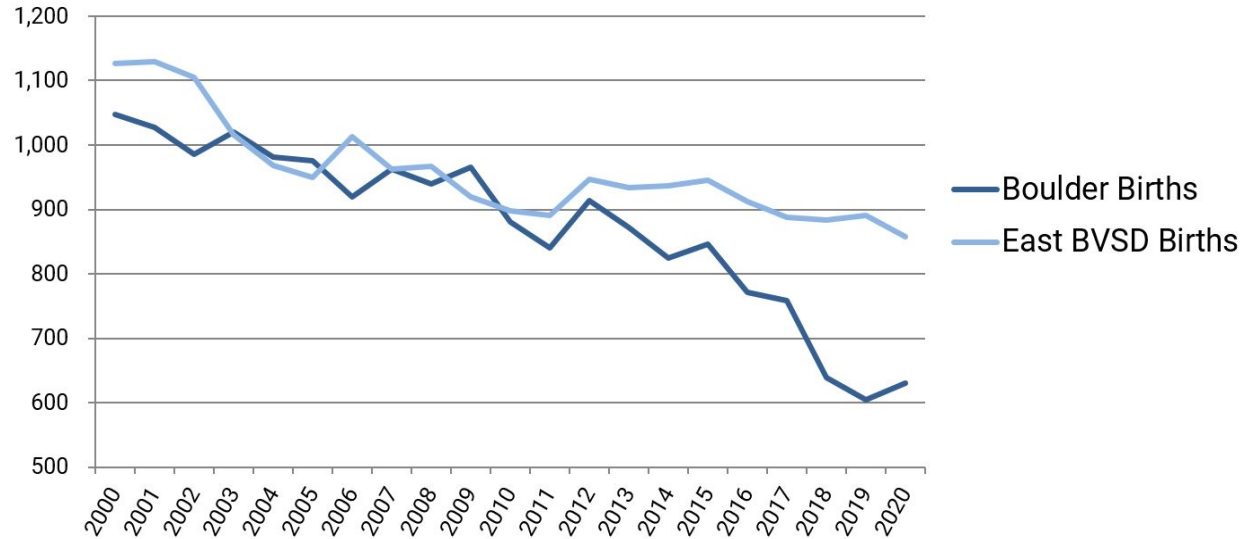

# Out-of-District Enrollment

- Partly due to limited capacity at high schools
- Unaffected by COVID

## Birth Trends 2000 to 2020

## Takeaways

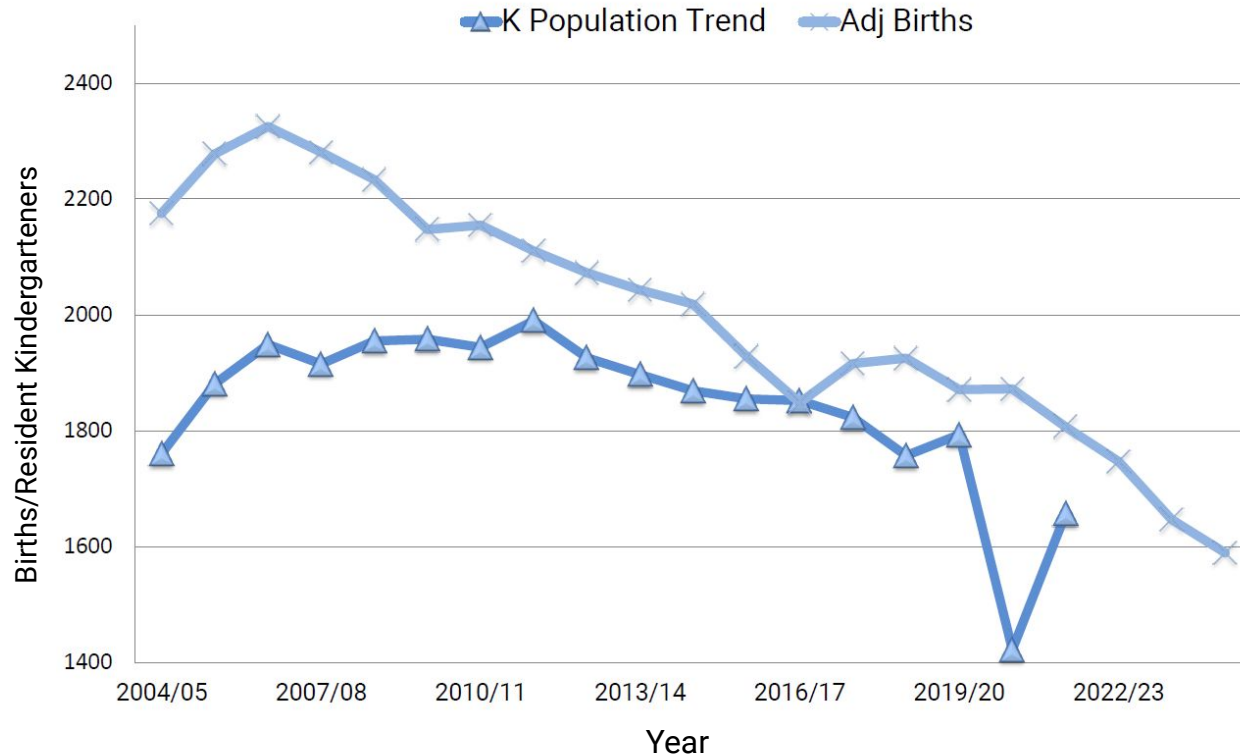

- Births in decline since 1990
- Boulder decline steepens in 2012 while eastern BVSD mostly levels
- Women delaying childbirth

### Birth by Age of Mother (%)

|                       | 15-19 | 20-24 | 25-29 | 30-34 | 35-39 | 40-44 | 45+ |
|-----------------------|-------|-------|-------|-------|-------|-------|-----|
| <b>Boulder 2020</b>   | 2%    | 8%    | 14%   | 36%   | 30%   | 11%   | 1%  |
| <b>East BVSD 2020</b> | 2%    | 7%    | 18%   | 39%   | 29%   | 4%    | 1%  |

# Adjusted Births and Resident K Trends

- Past birth declines didn't impact K enrollment; likely offset by in-migration and retention.
- Gap between births and follow-up Ks has been narrowing.

Enrollment 2021

# Summary

---

# Summary

- Continued enrollment decline (-279/-1%) over last year.
- Even with modest recovery, COVID still a large factor in enrollment with significant numbers of students still not returning from last year.
- Middle-level appears to have gotten fewer students back from 2020.
- Enrollment in decline even prior to COVID and expected to continue at approximately -1% (-250 students) per year.
- Boulder schools largely driving declines, but offset somewhat by new housing growth from Lafayette and Erie.
- Future enrollment levels largely determined by birth rates and net migration.
