

BVSD Enrollment and Student Movement Trends

DISTRICT LEVEL ENROLLMENT 2017

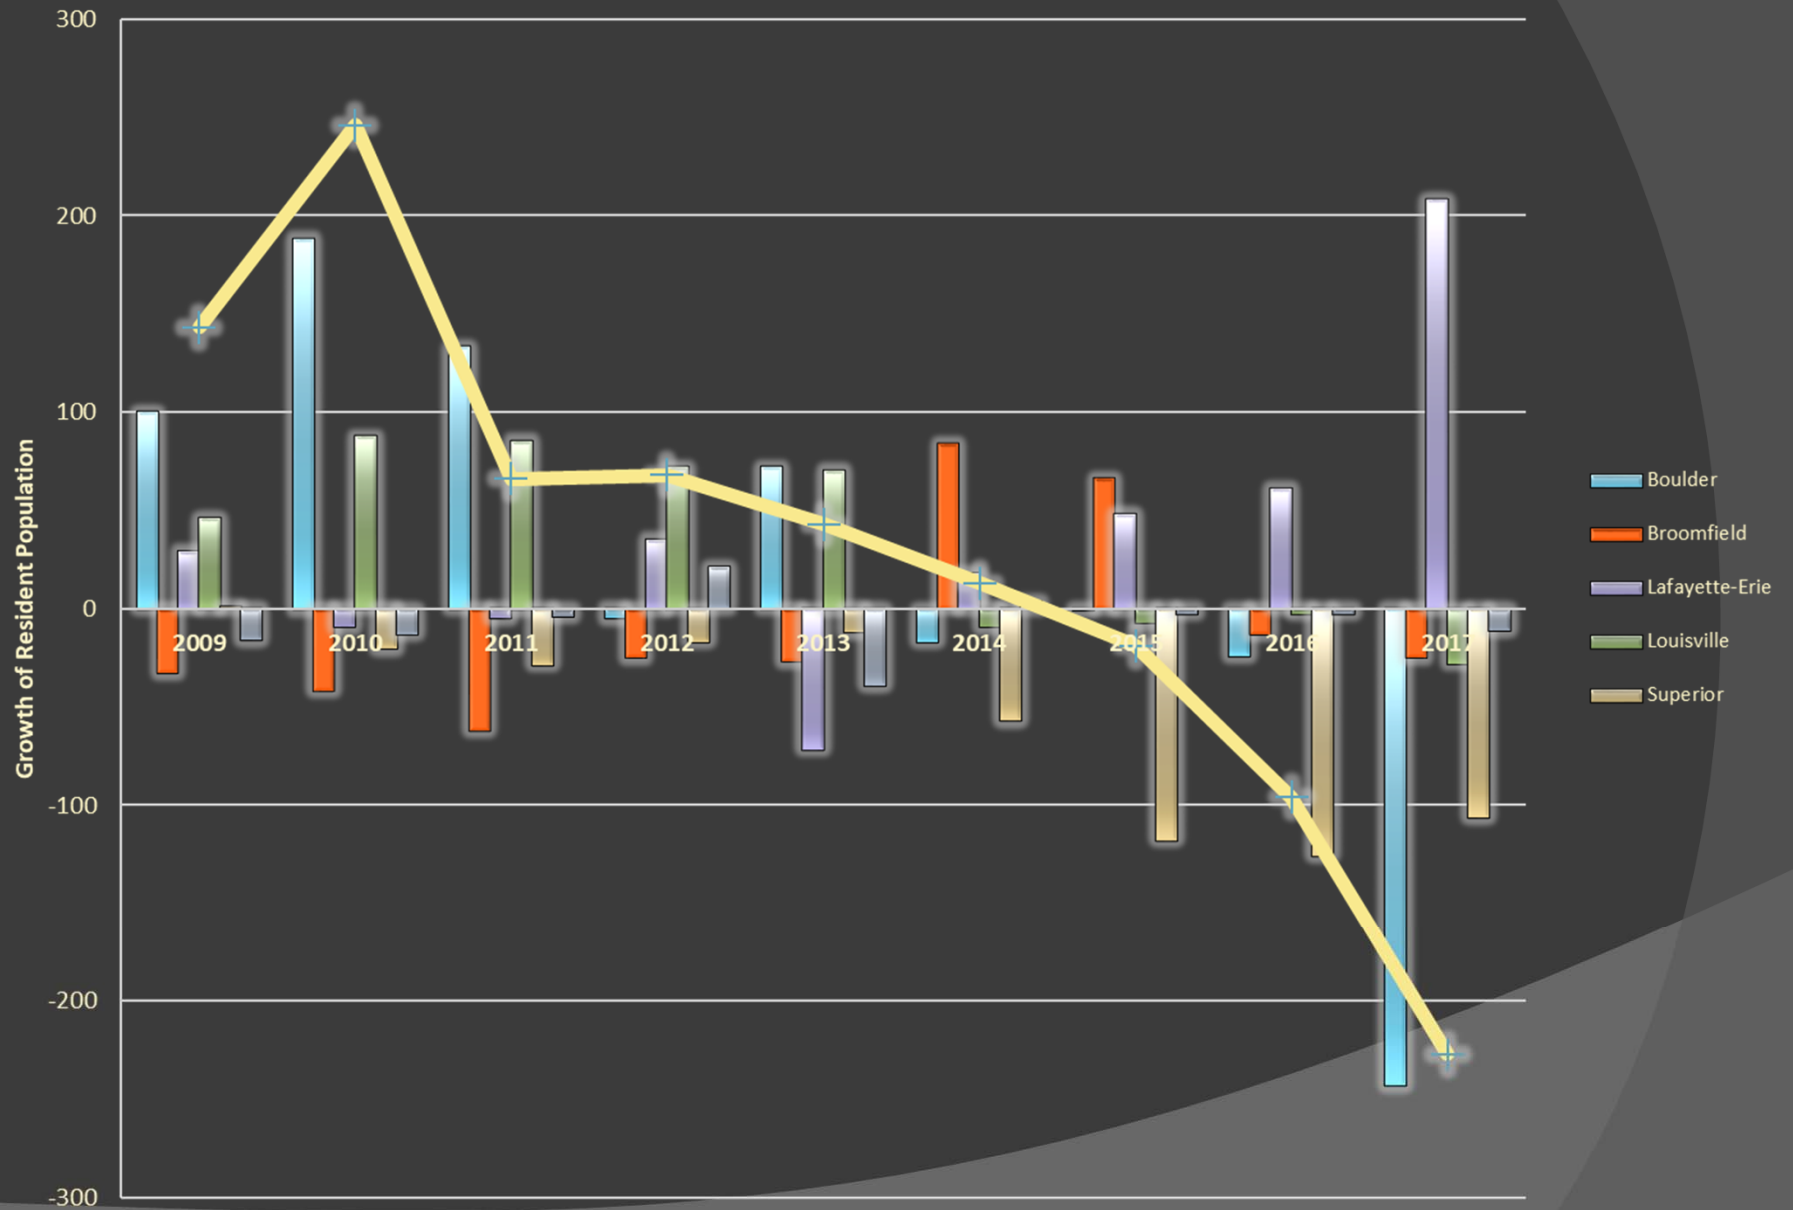

K-12 Enrollment Trend 2007 - 2017

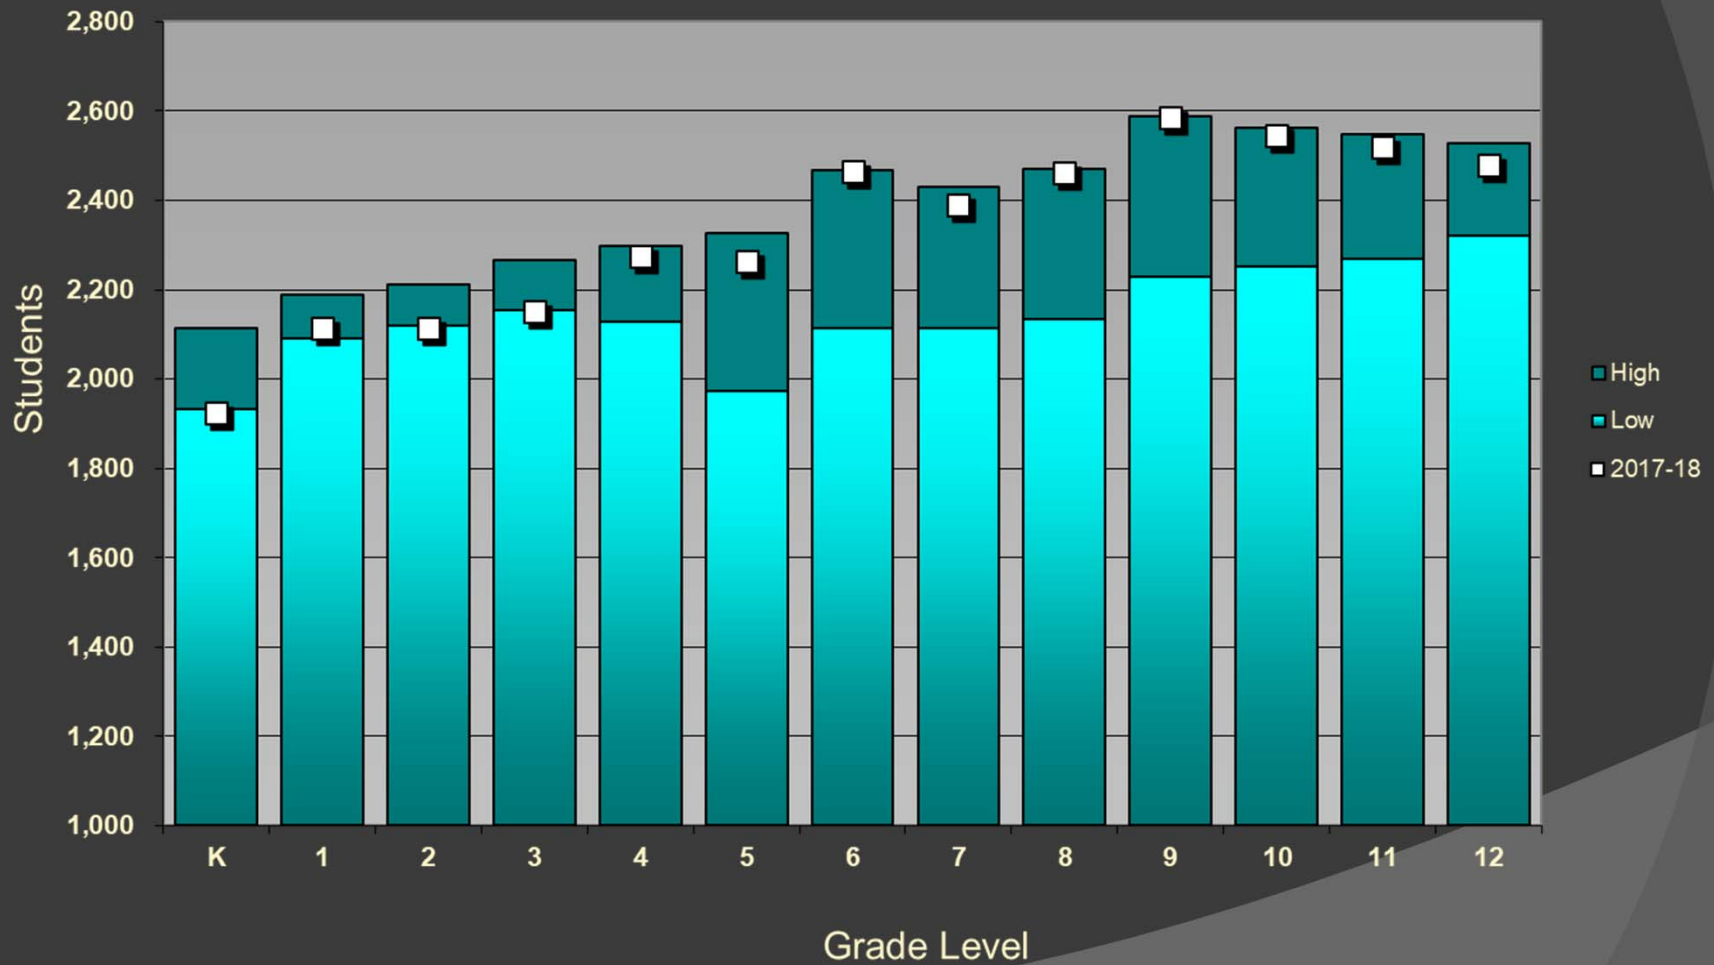

Annual Enrollment Change by Grade Level

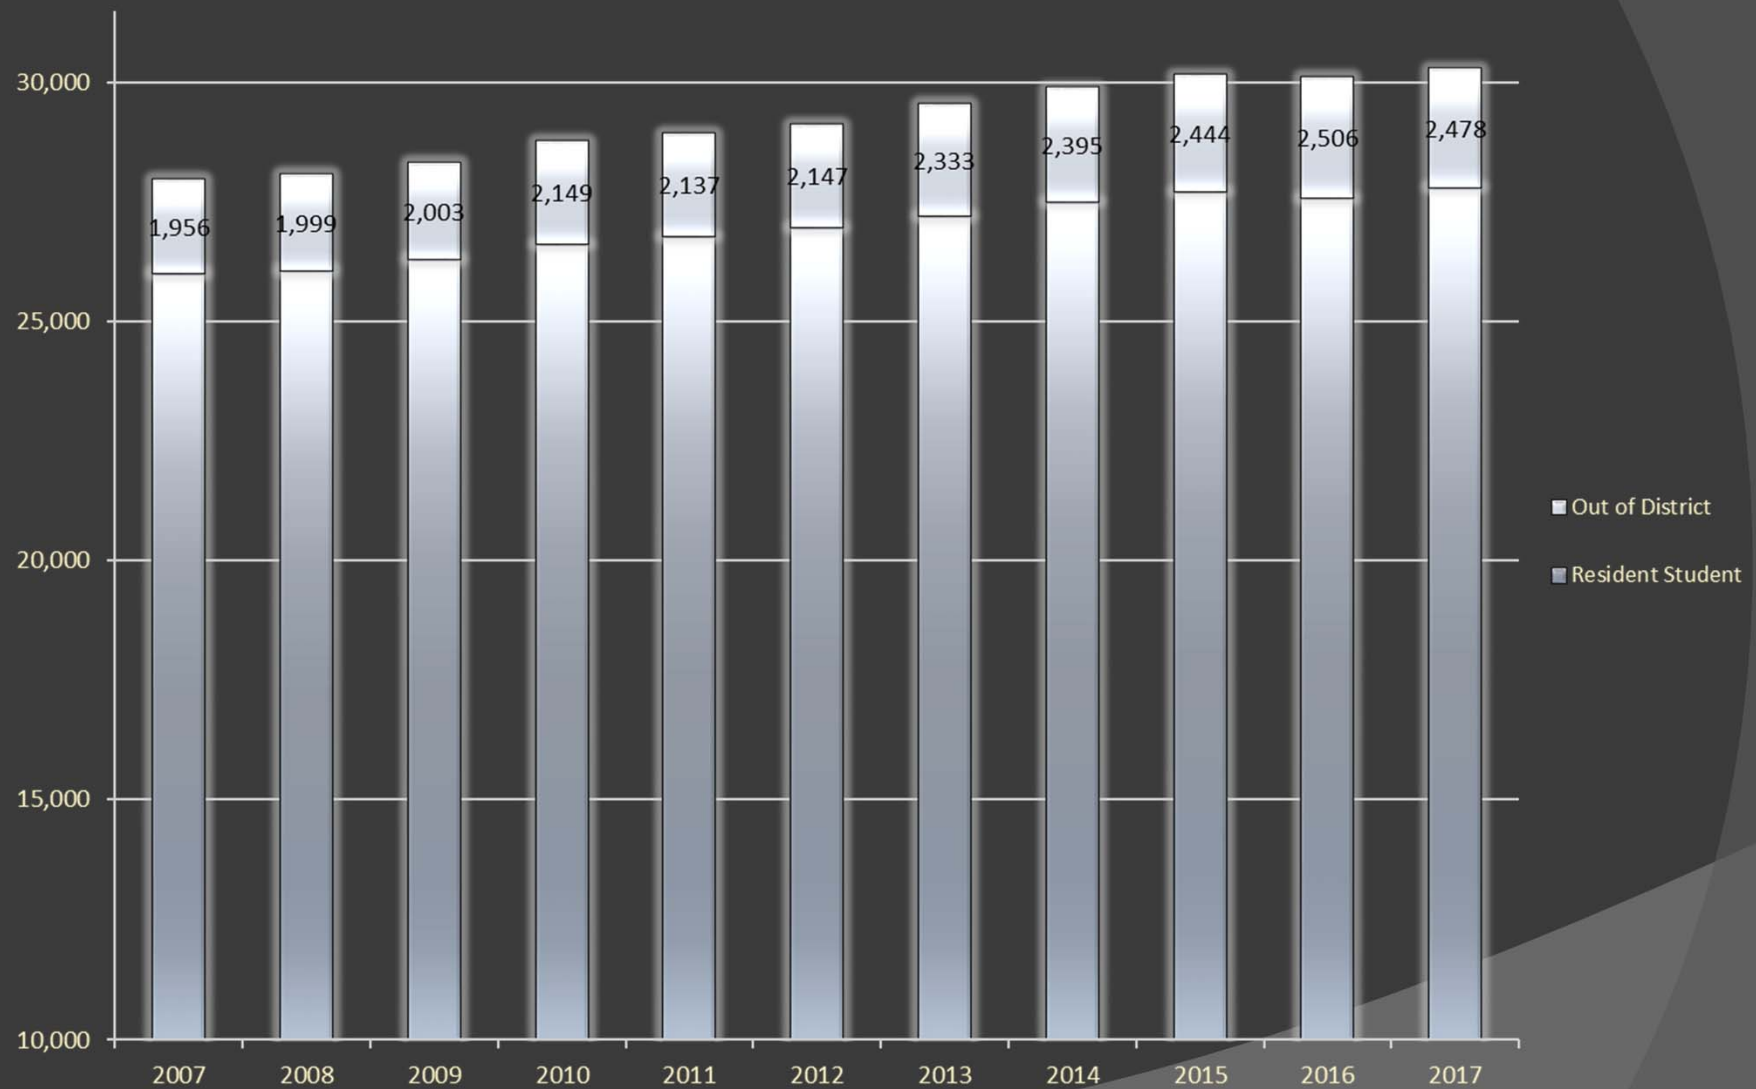

Change in Elementary Resident Students by Community

BVSD Grade Distribution: 10-Year High-Low and 2017-18

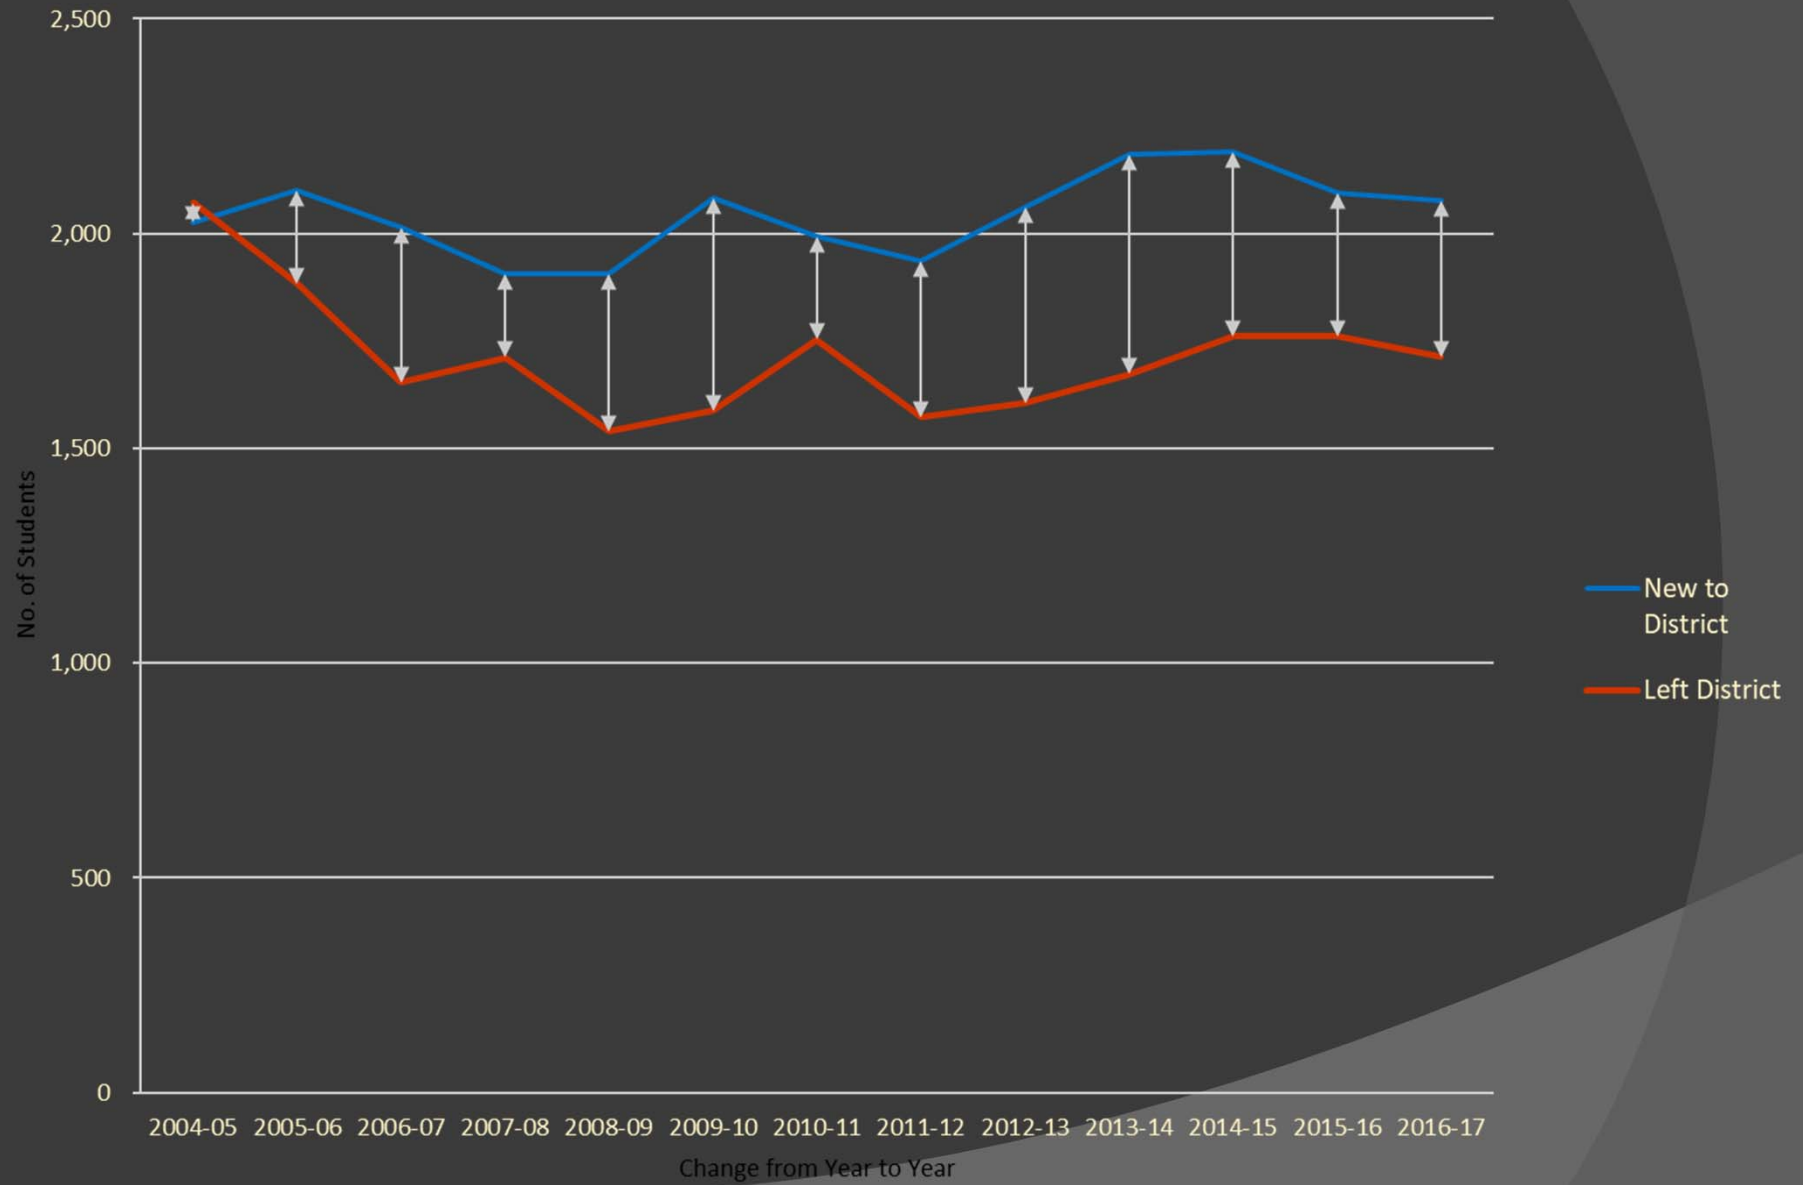

Out of District and Resident Student Enrollment

New and Leaving Resident Students for BVSD 2004-2017

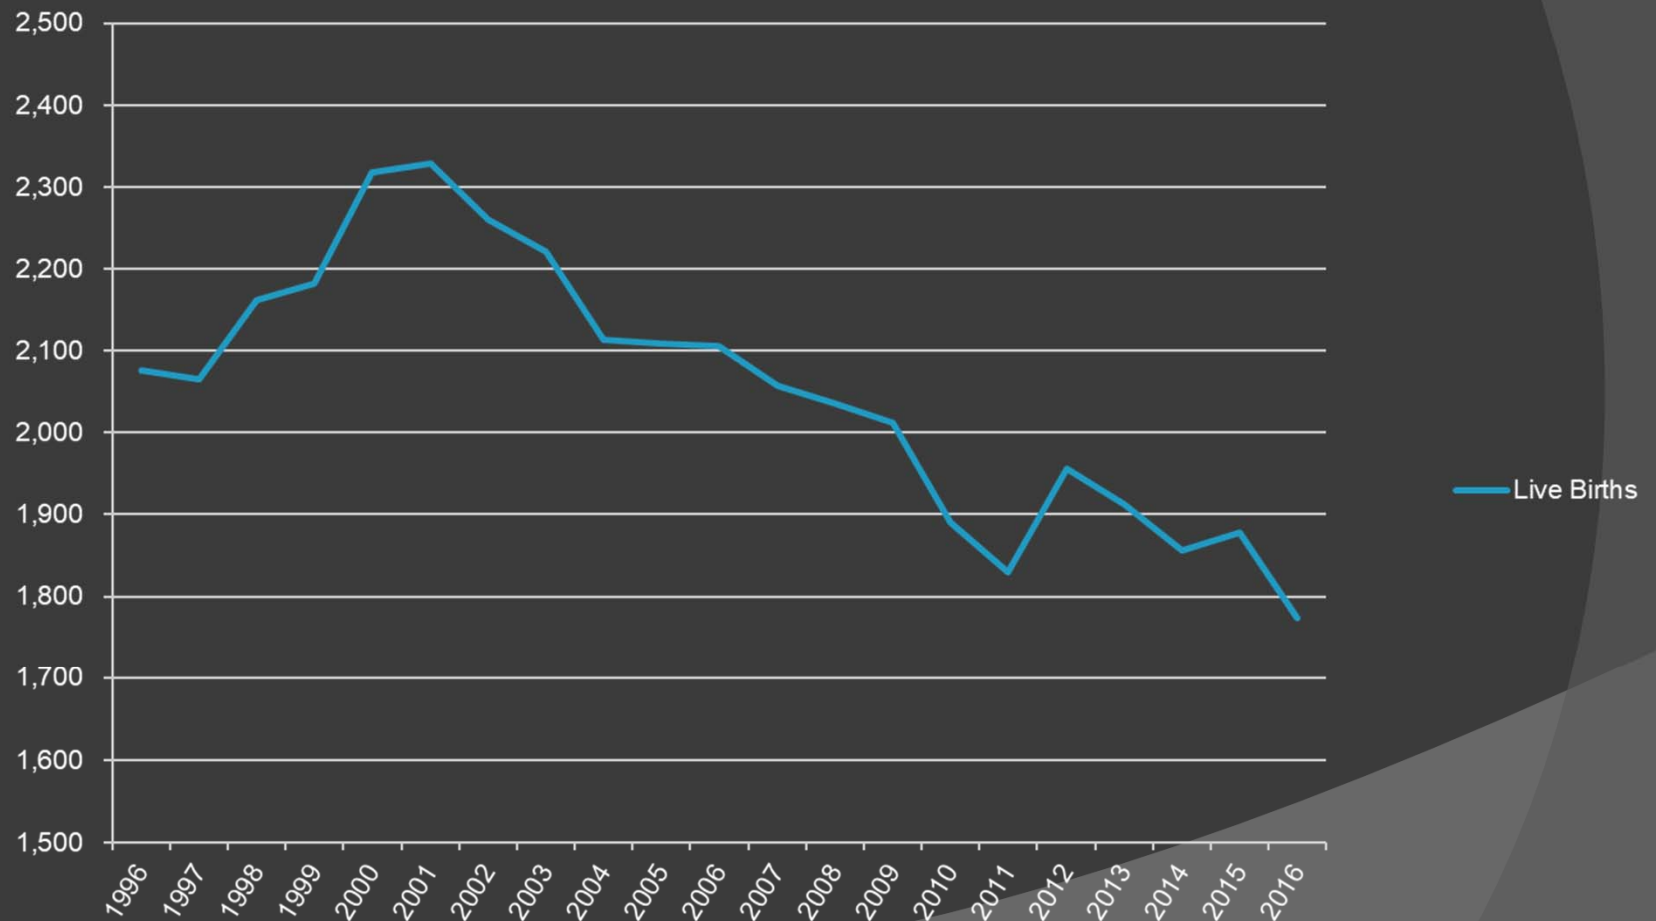

(adjusted for incoming kindergarteners and outgoing 12th graders)

BVSD Birth Trends (source: Co. Dept. of Health and Environment)

Total Fertility Rate 2000/2010: 1.4/1.3

Birth by Age of Mother (%)	<u>15-19</u>	<u>20-24</u>	<u>25-29</u>	<u>30-34</u>	<u>35-39</u>	<u>40-44</u>	<u>45-49</u>
2000	5%	12%	22%	33%	22%	6%	0%
2010	3%	9%	21%	36%	24%	6%	<1%
2017	2%	8%	19%	38%	30%	5%	<1%

SUMMARY of Growth Components

- + Enrollment Growth is Positive (141/.5%) but slowing; significantly negative at Elementary (-171/-1.4%).
- + Resident Student Growth also Positive but slowing; loss even greater at Elementary (-227/1.8%).
- - Losses at Elementary in all communities except Lafayette-Erie, which saw strong resident Elementary growth (+208/9.9%).
- + The influence of cohort (grade-levels) size was strong in 2017 with a small outgoing 12th grade driving overall growth. A very large outgoing 5th also drove elementary decline.
- +/- The number of overall Out-of-District students was level this year, new O.O.D. was average (even with the opening of Meadowlark).
- + “Net Migration” positive and on par with 2016, but below other recent years
- - Kindergarten negative, with strong recovery at 1st. Classes still small and cumulatively creating a drag at elementary.
