Long Range Advisory Committee & Heatherwood Community Engagement Process

Long Range Advisory Committee

- Co-chairs attended Heatherwood engagement meetings
- New members
- Sept. 16 meeting
 - Heatherwood engagement process update
 - Middle / K-8 School next steps
 - Feedback re: Declining Enrollment work session presentation

September/October

- Meetings with middle and PK-8 principals to explore the impacts of declining enrollment on the middle-level experience

November

- Share feedback with LRAC

January

- Discuss middle school recommendations
- Review Enrollment Update

March

- Discuss middle school recommendations
- Review Annual Trend Report
- Share information about attendance area boundary review

Heatherwood Community Engagement Process & Proposal

Overview of Process To Date

April 2022	2022-23	Fall 2023	Feb. 2024	Apr. - Sep. 2024
LRAC Created Board hears an update on enrollment and directs staff to create the Long Range Advisory Committee	LRAC meets and presents recommendations to the Board Recommendations outline two levels of response based on enrollment at individual schools, as well as specific recommended actions for the Board.	Board and staff act on LRAC recommendations BVSD conducts a survey of parent interests BVSD hosts an enrollment fair Board studies and revises enrollment policies	Annual Enrollment Trend report On LRAC's recommendation, staff and the co-chairs present enrollment projections and capacity information for each school. Six schools are in the Advisory Phase and Heatherwood is in the Community Engagement phase.	Heatherwood Community Engagement Process Heatherwood Educational Advisory Team develops recommendations regarding future programming and educational experiences

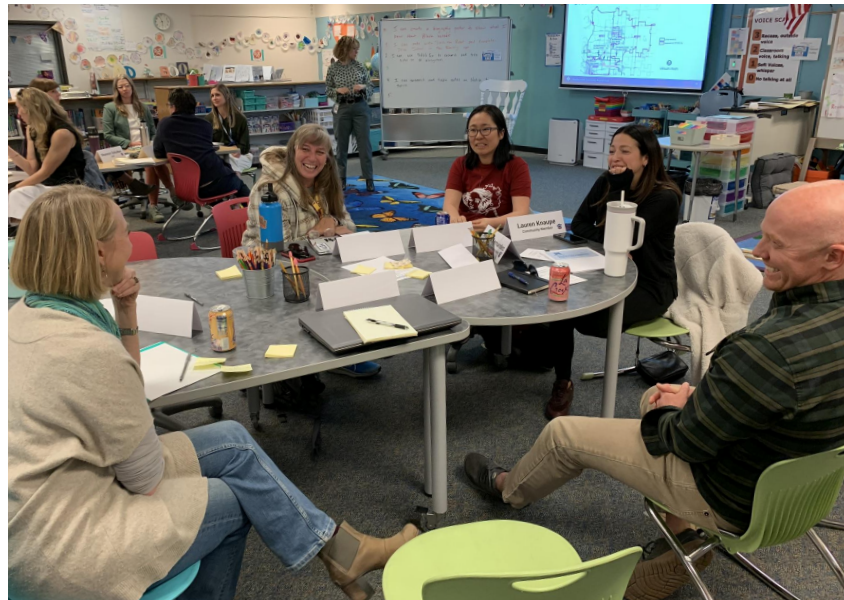

Heatherwood Educational Advisory Team

Purpose

The Heatherwood Educational Advisory Team **will develop recommendations regarding future programming and educational experiences** for the school in order to retain and attract additional families to the school.

Team

- 31 people applied to participate and 15 people were selected
- Participants include current parents, incoming parents, staff members and community members
- 9 meetings April - September

Heatherwood Educational Advisory Team

- Build background knowledge around declining enrollment and LRAC work
- Analysis of Heatherwood specific enrollment data
- Learned about constraints to potential responsive actions (eg: transportation, PK, after school care)
- Community surveys around enrollment choices and programming preferences
- Programming selection

Evidence of Support

- STEM/Eco-Science
- World Language as a special
- Accelerated - GT/high rigor

Heatherwood Neighborhood Survey Results				
Possible Programs	Current Families		Future Families	
	Definitely Choose	Would Consider	Definitely Choose	Would Consider
STEAM	65%	28%	60%	37%
Environmental Science	47%	42%	49%	42%
World Language	46%	31%	62%	31%
Accelerated/GT	36%	37%	44%	43%

Heatherwood

Environmental STEAM

Inspired by Nature

From the Team

“The process has been so inspiring to see a community come together”

“This group prioritized the needs of the WHOLE community”

“I feel honored to be able to help develop E-STEAM in the Heatherwood community.”

“Environmental STEAM is a perfect fit. It is an exciting step for our school and the community.”

Program Description

- STEAM (Science, Technology, Engineering, Arts, and Mathematics) principles through a focus on environmental literacy.
- Fosters a deep connection between students and the natural world, encouraging them to love, explore, understand, and creatively address environmental challenges through a multidisciplinary approach.
- Boulder County Environmental Education Guidelines (E-Guidelines) to learning connects students to their academic and social learning.
- Aligned with Seal of Climate Literacy
- Future development of elementary-HS Environmental STEAM pathway
- Colorado content standards and academic rigor will continue to be the core of the academic program at Heatherwood

Expected Outcomes

Students show growth over time in four areas of their learning as laid out in Boulder County Environmental Education Guidelines (E-Guidelines)

- Academic skills and knowledge (Head)
- Social-emotional learning (Heart)
- Action and service (Hands)
- Connection to place (Feet)

Evidence that Program Will Be Effective

Educational Program

- Continuous improvement in CMAS and other required assessments
- Continuous improvement on Culture-Climate Survey data (students, staff, parents)
- Measures of Student Discipline Data will improve through increased engagement and relevant learning

Operational Program

- Increase in student enrollment
- Increase in retention rate of students enrolled at Heatherwood
- Increase in positive feedback from Open Enrollment

Program Evaluation & Staff Development

Program Evaluation

- Data Review Process Based on Program Effectiveness Data
- Year-End Program Goals and Objectives Assessment/Reflection

Staff Development

- 2024-25: Implementation Planning
 - Project-Based Learning (PBL) Professional Development, Collaboration and Design
 - STEAM, greenBVSD and Partners Professional Development and Collaboration
 - Introduction to E-Movement Guidelines and Nature-Based Learning
- Ongoing Implementation
 - Continued PBL training, support and collaboration for implementation
 - Continued support for STEAM integration
 - Continued support for environmental partnership and programs

Required Resources

Resources	Estimated One-time Cost
Materials	
PBL Curriculum Design	\$25,000
Grade-level science equipment, technology, and physical materials	\$5,000
Marketing- printing/advertising materials	\$700
Personnel	
2025-26: Year 1 Implementation: 0.5 FTE - STEAM TOSA	\$75,000
2026-27: Year 2 Implementation: 0.5 FTE - STEAM TOSA	\$79,000
2027-28 Academic STEAM Tutor: 1.0 FTE	\$42,000
Time	
2024-25: Sub release time for PBL design process	\$4,500

**Total Estimated
One-time Cost
Over 3 Years**

\$238,700

Resources	On-going
Materials	
Field Experience Support (buses, fees, etc.) - ongoing expense	\$7,500

Timeline & Next Steps

October

- Initial PBL Design Specifications
- Identification of PBL Creation Team

November

- Begin PBL Design
- Expand Current Partnerships / Secure New Partnerships

January

- Revise and Align BVSD Elementary Science and Social Studies Scope and Sequence with PBLs and Environmental STEAM Program
- Professional Learning - PBL and/or E-Movement

March

- Professional Learning - PBL and/or E-Movement
- Plan for Program Launch 2025-26

Marketing & Promotion

In tandem with efforts to launch the Environmental STEAM program, the Heatherwood community is eager to take on marketing and promotion efforts to spread the word about the new program and what already makes Heatherwood special.
